## Temporal Power:

**Spiritual Authority and Temporal Power** René Guénon, 2001 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Spiritual Authority and Temporal Power is an analysis of cyclical manifestation and more specifically of the relationship between royal and sacerdotal power In accord with the Hindu doctrine of the manvantara and Plato's depiction of historical degeneration in the Republic Gu non considers history here as a series of revolts of lower castes against the higher The kshatriyas warriors revolt against the brahmins priests thus setting the stage for the revolt of the vaishyas loosely the bourgeoisie as in the French revolution and finally of the shudras the proletariat as in the Russian revolution From one point of view this is a progressive degeneration from another it is entirely lawful given the entropic nature of manifestation itself External historical descent reflects an inner degeneration knowledge the celestial paradise is eclipsed by heroic action the terrestrial paradise which is in turn overrun by the inertia and agitation of the passions Yet the nadir of degeneration is also the point of renewal the dawning of the Heavenly Jerusalem spiritual Knowledge which begins a new cycle of manifestation Touching first on India and the medieval West Gu non then illustrates his point by citing quarrels over investiture and disputes of certain French kings with the papacy as evidence of a deviation in Christianity In the preface he refers to recent incidents that had drawn attention to this general question and although he says that his deliberations are not meant to deal directly with them it may be of interest to note that the events concerned centered on a confrontation in 1926 between the political organization Action Fran aise and Pope Pius XI
