Temporary Agency:

Temporary Agency Work and Globalisation Huiyan Fu, 2016-03-03 Despite its geographic and industry expansion as part of the ongoing globalisation of service activity temporary agency work TAW is relatively understudied TAW is characterised by a distinct triangular structure where workers are typically hired by staffing or employment agencies while being dispatched to firms that use them as a type of temporary or non regular labour This agency mediated labour dispatching as a newly institutionalised industry has registered rapid growth rates over recent decades across vast swathes of the globe To a great degree TAW is part of a wider structural transformation of work and employment under neoliberalism Arguably controversy over the expanding non regular workforce is at its most acute when it comes to unsavoury labour selling practices In this connection TAW is an exemplary field in which to examine today's flexible capitalism and its concomitant phenomenon i.e. inequality Featuring holistic and interdisciplinary perspectives this edited collection provides a comprehensive overview of TAW in an international context It reveals how the TAW industry is intertwined with the changing relationship between the state corporations and labour unions at the institutional structural level and also the perceptions and experiences of ordinary workers in everyday practice By combining global and local forces macro and micro levels of analysis and theoretical and empirical investigations the book offers fresh insights into recurring issues of labour flexibility and inequality contributes to practical applications and facilitates fruitful cross national collaborations

Temporary Agency Work and the Information Society Wilfried Beirnaert, 2004-01-01 A generation ago temporary work was practically outlawed During the 1950s the International Labour Organisation ILO clearly stated in response to a question from the Swedish government that temporary agency work was prohibited by ILO Convention 96 regarding fee charging placement Trade unions of course were in complete agreement both because temporary work arrangements undermined the situation of permanent workers and deprived the temporary workers themselves of equal treatment guarantees Yet persistent employers always ready to find ways around this prohibition have gone from strength to strength until today the role of private employment services is offered up to the public as that of an active link between employer and employee and an equal benefit to both It is even defended as a force that effects the social integration of long term unemployed even of non qualified or less qualified workers It is indeed along these lines that the proposed European directive on the working conditions of temporary workers justifies its requirement of Member States to discontinue any restrictions or prohibitions on temporary work for certain groups of workers sectors or areas of economic activity But how justifiable is this idea of the generalized leasing of employees How acceptable is it under both labour law and social justice considerations Although these important questions have been asked repeatedly for many years no answers acceptable to all parties have yet been found Accordingly in April 2003 a group of outstanding authorities practitioners ILO officials academics policymakers jurists and labour experts met in Brussels to reconsider these issues in light of the ongoing discussion on the proposed directive and the

major labour market developments which have taken place in many countries over the last few years Among the considerations raised there and recorded in this book are the following the potential role of private employment agencies as fully integrated manpower providers the wages and working conditions of workers who are put at the disposal of users guarantees of equal treatment and other social protection provisions for temporary workers the possible development of a dual employer scheme of agency and user and continuing work diversification and its acceptability to the various actors and interests involved These papers reports and panels merit great attention because the matters they discuss will determine the way our labour markets at national European and international level will function for years to come No practitioner policymaker or academic in the field of employment and labour relations can afford to ignore this very significant book This volume contains reports given at the International Conference on Temporary Agency Work and the Information Society held on 28 29 April 2003 at the Royal Flemish Academy Brussels and sponsored jointly by the Academy the Euro Japan Institute for Law and Business and the Society for International and Social Cooperation

International Perspectives on Temporary Agency Work John Burgess,K. John Burgess,Julia Connell,2004 The number of workers employed on a temporary basis has grown hugely over the past few decades This new book provides the first serious analysis of temporary work and its effect on the economy as well as its ramifications for workers Both editors from University of Newcastle NSW

Management and Organization of Temporary Agency Work Bas A.S. Koene,Nathalie Galais,Christina Garsten,2014-02-03 Over the past two decades the use of flexible employment relations has increased in most developed countries The growth of temporary agency work constitutes a significant component of this development Organizations are now facing the challenges of managing a blended workforce i e a workforce consisting of both direct hires and contractors At a time when Europe as well as the rest of the world is facing enhanced global competition and a severe labor market crisis an understanding of temporary employment practices becomes all the more acute With the evolution of the use of agency work in the Western world over the past decade the chapters in this volume show how a focus on the management and organization of temporary agency work can be helpful to see possibilities and pitfalls for the use of temporary employment in the wake of changed employment practices and challenges to labor market stability and welfare structures Together the new case studies presented in this volume provide a wide scope of analysis of the organization and management of temporary agency work offering a much needed contribution to the discussion of issues and priorities that guide and shape organizational practices today Its particular uniqueness lies in the empirical richness and variety of local case studies and the way in which these are related to wider policy aims ideological shifts and the dynamics of organizational practice with a particular focus on the organization and management of blended workforces

Temporary Agency Work and Globalisation Dr Huiyan Fu,2015-04-28 Despite its geographic and industry expansion as part of the ongoing globalisation of service activity temporary agency work TAW is relatively understudied This edited collection provides a comprehensive overview of TAW in

an international context revealing how the TAW industry is intertwined with the changing relationship between the state corporations and labour unions at the institutional structural level and also the perceptions and experiences of ordinary workers in everyday practice By combining global and local forces macro and micro levels of analysis and theoretical and empirical investigations the book offers fresh insights into recurring issues of labour flexibility and inequality making practical suggestions and facilitating fruitful cross national collaborations
