Temptations Of A Superpower:

Temptations of a Superpower Ronald Steel, 1995 America is the last remaining superpower Yet what does this triumph mean when the challenges we face often defy military solutions In *Temptations of a Superpower* one of our most eloquent and incisive foreign policy analysts takes a hard look at this question with all its implications for America's role in the post Cold War world Ronald Steel offers a devastating critique of a high stakes game of foreign policy played by rules that no longer apply and then proposes a more realistic and pragmatic view of the world and our place in it The Cold War imposed a certain order on the world giving us a secure sense of our enemies and allies our interests and our mission Steel paints a disturbing picture of the world now deprived of its ordering principle where ethnic conflicts and national rivalries once held in check erupt in violence where the shifting allegiances and fevered ambitions flout familiar strategies for keeping peace conducting trade and protecting human rights He explores the history of our present predicament and explains the dangers of adapting outmoded but habitual policies to a new world whose shape is fast evolving What for instance is the future of America's military deeply embedded as it is in our culture and economy If Wilsonian idealism with its vision of converting the world to democracy replaces anti communism as the guiding principle behind foreign policy how far should it take us What distinctions should we make between our nearest neighbors and distant nations How are we to balance economic needs and ethical imperatives Analyzing the turmoil sweeping the world from China to Bosnia Haiti to the Caucasus Steel depicts the shattering dilemmas facing American policymakers What concern should the United States have with many world quarrels How can national interest be reconciled with strategic considerations and morality When should domestic needs take precedence over foreign policy The alternatives that Steel proposes to current policies defy much of the conventional wisdom and are certain to provoke controversy He asks not only what America should do for the world but what it must do for itself Reminding us that foreign and domestic policy are inseparable Steel argues that a renewed foreign policy must address not only changes in the world order but the pressing unmet needs within America itself *The Word Before the Powers* Charles L. Campbell, 2002-01-01 In this examination of the ethical significance of preaching Charles Campbell provides both fresh insights into the relationship between preaching and ethics and a challenging moral vision for the contemporary church Moving beyond a narrow focus on moral decision making or social issues sermons Campbell argues that a particular ethic nonviolent resistance is inherent in the practice of preaching and shapes the moral life of the church In the face of the powers the fundamental ethical task of preaching involves building up the church as a community of resistance Employing three dimensions of character ethics vision practices and virtues Campbell demonstrates the concrete ways in which preachers may undertake this task **Angels of Light, Powers of Darkness** Stephen Noll, 2003-04-25 Recent years have brought an unexpected revival of popular interest in angels Books professing to draw back the curtain on the unseen angelic world filled entire bookstore shelves Here as if to mock the cold universe of modernity were the stories of numerous and

warm encounters with angelic beings But who are angels and what is their nature and purpose in the biblical scheme of things Are the biblical stories to be taken literally or symbolically or should they be relegated to another day and age How have the great theologians of the church regarded the angels And most important what are the nature and role of angels in God's cosmos and his redemptive plan Stephen Noll answers these questions in this detailed exploration of angels in the tapestry of Scripture Here is a biblical theological study of angels Satan and the powers that fills a significant gap and will command the attention of serious students of scripture *Breaking Controlling Powers* Roberts Liardon, 2005-06-01 Victory Over Spiritual Attacks Roberts Liardon has combined three of his best selling books *Breaking Controlling Powers* *Learning to Say No Without Feeling Guilty* and *How to Survive an Attack* to give you spiritual weaponry you need to fight the good fight of faith This book contains insights into Surviving attacks on body soul or spirit Recognizing attacks before they start Breaking free of manipulative people Learning to say no without feeling guilty Saying no to temptation and yes to God Receiving the Holy Spirit's power If you want renewed strength to stand firm against evil attacks if people are coming between you and God or if you ever feel like the whole world is against you then this three in one volume is for you

Powers of Darkness Clinton E. Arnold, 2025-06-12 Satan worship Witches New Age channelers The last two decades of the twentieth century witnessed a vast upsurge in occult activity Scores of popular books have warned Christians of the dangers and urged them to do battle against these spiritual forces Few books however have developed a careful biblical theology on demons principalities and powers Clinton Arnold seeks to fill this gap providing an in depth look at Paul's letters and what they teach on the subject For perspective he examines first century Greek Roman and Jewish beliefs as well as Jesus teaching about magic sorcery and divination Arguing against many recent interpretations that have seen principalities and powers as impersonal social economic and political structures Arnold contends that the New Testament view is that such forces are organized personal beings which Jesus defeated at the cross and will bring into full subjection at his return In his concluding section Arnold suggests practical ways in which Christians today can contend with the forces of evil **Powers of Darkness** is a thoughtful biblical look at an urgent challenge facing the church **The Church of England Pulpit, and**

the European Union the Western European Union NATO and the Organization for Security and Cooperation in Europe are examined Conventional forces in Europe and confidence and security building measures are also explored Throughout the contributors focus on the possibilities and limits of security cooperation as Europe prepares for the next century Students and scholars concerned with international security issues international relations theory and European security and politics will be particularly interested

Yoga Powers Knut A. Jacobsen, 2011-10-06 A neglected topic in the research on yoga and meditation traditions the extraordinary capacities called yoga powers are at the core of the religious imagination in the history of religions in South Asia Yoga powers explained the divine the highest gods were thought of as great yogins and since major religious traditions considered their attainment as an inevitable part of the salvific process the textual traditions had to provide rational analyses of the powers The essays of the book provide a number of new insights in the yoga powers and their history position and function in the Hindu Buddhist and Jain traditions in classical Yoga Ha ha Yoga Tantra and aiva textual traditions in South Asian medieval and modern hagographies and in some contemporary yoga traditions
