Dalai Lama is the fourteenth of a line of priest kings who have ruled Tibet more or less independently of China since the fifteenth century. China's claims to Tibet date back to the thirteenth century when the Mongol conquerors of China proper made Tibet a part of their empire. Also ever since China has sought to assert her authority when her empire has been strong but has always been rejected by the Tibetans when she has been weak. *The CIA's Secret War in Tibet* Kenneth J.

Conboy, James Morrison, 2002 In one of the most remote covert campaigns of the cold war the CIA harnessed, nurtured and encouraged the Khampa tribesmen of Tibet in their defiance against Chinese subjugation. This is the first time the story has been told. *The Fourteen Dalai Lamas* Glenn H. Mullin, 2001 The 14th Dalai Lama, winner of the Nobel Peace Prize and spiritual leader of the Tibetans in exile, is well known in the West but the 600 year tradition to which he is heir is less familiar. In this book Glenn Mullin offers the life stories of all 14 Dalai Lamas in one volume for the first time. He has also included excerpts from their teachings, poetry and other writings that illuminate the principles of Tibetan Buddhism. From the birth of the first Dalai Lama in 1391, each subsequent Dalai Lama has been the reincarnation of his predecessor, choosing to take up the burdens of a human life for the benefit of the Tibetan people. For almost six centuries the Dalai Lamas have served as the Tibetans' spiritual leader and have held secular power for nearly half that time. The Dalai Lamas are revered as incarnations of Avalokiteshvara, the Buddhist embodiment of compassion, but each has been a unique individual with different abilities and temperament. **Science, Spirituality, and the Future** Lakhana Maharotrā, 1999 Collects essays in honour of Dalai Lama. The papers are divided under the headings: Non Violence And Compassion, Time And Transcendence, Inner And Outer Disciplines, Divergence And Convergence Of Science And Spirituality, And Finally There Is A Slimmation In All 17 Papers.

The End is Near! Roger Manley, 1998 The End Is Near maps the millennial fervor that haunts our consciousness and gathers the most provocative collection of visionary art ever assembled from artists who dwell on the shadowy fringes of society. 160 color and 40 duotone illustrations. **Dialogues with Scientists and Sages** Renée Weber, 1986 This is the first book in which contemporary scientists and mystics share with us in their own words their views on space, time, matter, energy, life, consciousness, creation, and on our place in the scheme of things. The book is also the story of an American philosopher who with these dialogues ventures into ground breaking territory and of her search in America, Europe, India, and Nepal for people whose work is at the center of our understanding of reality. **A Sourcebook in Asian Philosophy** John M.

Koller, Patricia Joyce Koller, 1991 A convenient one volume collection of English translations of the basic texts that have shaped the major Asian philosophical traditions. **Dialogue and Universalism**, 2000 **Presidents' Secret Wars** John Prados, 1996-02-01 In this newly revised and updated edition of his essential work John Prados adds his concluding findings on U.S. covert operations in Angola, Afghanistan, Nicaragua, and the Persian Gulf. Acclaimed as a landmark book about U.S. intelligence agencies in the postwar era, *Presidents' Secret Wars* describes the secret warfare mounted by the president, the CIA, and the Pentagon, operations aimed at altering the destinies of nations and the course of global politics. Mr. Prados uses

many newly declassified documents to open a vital window on this most secret aspect of American foreign policy A worthy and informative book Washington Post An important book Prados s recounting of the often neglected early days of the C I A and its covert activities is especially enlightening New York Times Book Review For those concerned with the study of intelligence Presidents Secret Wars will be highly useful because Dr Prados has done serious archival research This volume moves the study of covert operations to a higher and more sophisticated plane Intelligence and National Security **The Courage of Conviction** Phillip L. Berman,1986 A volume of extraordinary essays by 32 outstanding individuals
