Guidebook William A. Hinson, 2017-10-27 The Sumerian King List allegedly recorded all the rulers of Earth over 400 000 years who were said to be gods demigods or immortals or one soul playing all the roles In Sumerian Mythology the Anunnaki were a pantheon of good and evil gods and goddesses duality who came to Earth to create the human race According to some resources these gods came from Nibiru Planet of the Crossing The Assyrians and Babylonians called the planet Marduk after their chief god The Sumerians believed one year on the planet Nibiru called a sar was equivalent in time to 3 600 Earth years The Anunnaki therefore had lifespans that were 120 sars which is 120 x 3 600 or 432 000 years According to the Sumerian

King List 120 sars had passed from the time the Anunnaki arrived on Earth to the time of the Great Flood According to Ancient Alien Theory the Anunnaki and other alien groups came to Earth and seeded the human race in many variations This research was lead by Zecharah Sitchin and Erich von D niken among others you can see much of their research on the History Channel Series Ancient Aliens which is also found on YouTube This physical evidence of ancient astronauts can be found throughout our planet leading one to conclude that different races visited here at different periods in Earth s history or the same aliens return and set up various civilizations in which they could inhabit and experience In the first large civilization on earth ancient Mesopotamia we must first look at the Sumerian and Akkadian mythologies The Sumerians were the first civilization on our planet to put their stories down in writing and the first to establish the names and histories of their many gods The Sumerian gods include the following examples Enki the god of water and wisdom Ninhursag the earth mother Dumuzi the shepherd Inanna the goddess of love and war Ereshkigal the goddess of the underworld and the list goes on The Akkadian civilization which replaced the Sumerian civilization changed the name of the original gods The Babylonians replaced the Akkadian civilization and changed the stories around The Babylonians believed in a male dominated society they were the first to introduce the concepts of good and evil The snake became a symbol of evil women became chaos and daemons the intermediaries became the modern demons Some of the Babylonian gods included Ishtar the goddess of love and war Ea the god of wisdom Nintu Mami Belet Ili the mother of gods Tammuz the shepherd Irkalla the goddess of the underworld Do you see some similarities The Egyptian gods and goddesses Osiris the god of the dead ruler of the underworld Sekhmet god of war and Hathor goddess of love In the Greek myths the gods and goddesses are similar with the others Ares the god of war Aphrodite the goddess of love Athena the goddess of wisdom Hades the god of the underworld If you read these mythologies in chronological order from Sumerian gods to Akkadian gods to Babylonian gods to Egyptian gods to Greek gods and to Roman gods you will find that the names and point of view changes but their attributes are virtually identical However the Sumerians were more nature based they did not have the concepts of good and evil By the time we get to the Babylonians their stories are more masculine in nature You will find words in their stories that you will not find in the Sumerian stories The Babylonians introduced the concept of good and evil their women had to ask permission they had no voice These stories suggest that their society would control nature This is the same concept in Greek and Egyptian mythologies they were also more society based rather than Nature based It is the author s conclusion that these early Sumerian gods the Anunnaki were the same gods of later civilizations *Sumerian Mythology* Simon Lopez,2019-05-03 Do you know that the Sumerians believed that The moon was actually a god child conceived unintentionally by the God Enlil and a maid Or that humans were first created to do the chores on earth for the Gods and Goddesses The ancient Sumerians lived a difficult life and this is reflected in their myths However also reflected in their stories is their love for justice and the values which they most supported among them beauty honor and truthfulness Some of the stories included are How the world the

moon mankind and animals were created The retelling of the Epic of Gilgamesh the legend of the very first hero in history Ninurta and the slaying of the demon Asag The Myths of Kur the Dragon Conqueror Inanna s journey to the underworld And many other amazing tales Get this book and discover the fascinating world of Sumerian Mythology today **The Goddess of Sumer** Jenna Smith,2004-11 The Da Vinci Code meets Tomb Raider in this modern action adventure which draws factual archeological mysteries from ancient Sumer and weaves them into a life threatening chase from New York to Egypt A spirited young woman Jessica Shea stumbles upon a priceless relic of antiquity the head of a beautiful woman carved in a jewel like stone The statue possesses the spirit of an ancient goddess and begins to physically transform Jessica infusing her with mysterious power Forced to flee for her life by unknown assailants Jessica begins an adventure of romance and self discovery in a spine tingling chase into the supernatural With time running out she must solve the puzzle of an ancient Egyptian prophecy to help the goddess escape from her stone prison and rid the world of an evil spirit intent on destruction
