*Gold of Troy* Robert Payne, 1991-05 Towards the end of last century a shabbily dressed old scholar was to be seen wandering over an obscure mound in Asia Minor He had discovered ancient Troy Most unscientific of archaeologists Heinrich Schliemann nevertheless founded the modern science of archeology Schliemann had made four fortunes He had travelled half the world sired three children by a Russian wife and learned a dozen languages Perseverance had turned this penniless grocer clerk into the successful businessman personified Yet for many years his wealth had tasted like ashes He still did not know what he wanted Then while studying philology at the Sorbonne in his forty sixth year he remembered the stories of the ancient Greek heroes and set out to uncover buried Troy His search was quickened by a fierce hunger for gold Instinctively he chose his spots and ordered the workmen to dig Twice he discovered great treasures of gold Then he secured a divorce and asked a Greek bishop to find him a new wife who was good beautiful and an enthusiast for Homer With the lovely seventeen year old Sophia whom he chose from a photograph he began his most successful archaeological excavations Against hope against all the evidence this strange man discovered the walls of Troy King Priam s palace and enough antiquities to furnish a whole museum Dust jacket flaps

whereabouts and disposal of the Nazi s remaining stolen gold has led to numerous investigations and countless conspiracy theories Norman Ridley uncovers many of the mysteries surrounding this continuing search for the missing millions War is a costly business and in 1939 Germany was almost broke with its economy overheating and heading for runaway inflation Hitler needed hard foreign currency to pay for his war machine and the only way he could get this was by selling gold that he looted from the national banks of Austria Czechoslovakia and all the countries that were occupied after September 1939 Another source of gold was the theft of personal gold especially from the Jews most grotesquely the haul of dental gold which came out of the concentration camps No neutral country would accept Reichsmarks so the gold had to be laundered through

Swiss banks The story of Swiss complicity in German war crimes is still a subject of controversy and lawsuits There are also questions about the parts played by other countries particularly Portugal in laundering stolen gold for the Nazis The Vatican's dealings with Hitler have often been seen as ambiguous and this book investigates the Holy See's role in helping ship Nazi gold to South America and how that gold might have been used to re create the German Reich After the war a commission was set up to recover as much gold as possible and restore it to those from whom it was stolen This of course was beset by huge problems especially with regards to gold that was looted from Holocaust victims Enormous quantities of gold and other treasures were hidden in a mine at Merkers in Thuringia which was found by the US 3rd Army in 1945 but much gold remains unaccounted for and attempts are still ongoing to uncover supposed hidden caches the most recent in Poland where four tons are believed to have been found by the Silesian Bridge Foundation in May of 2022 The whereabouts and disposal of the remaining stolen gold has led to numerous investigations and countless conspiracy theories In *Hitler's Gold* the author analyzes these and uncovers many of the mysteries surrounding this continuing search for the missing millions
