**Seven Wheelchairs** Gary Presley,2008-04 In 1959 seventeen year old Gary Presley was standing in line wearing his favorite cowboy boots and waiting for his final inoculation of Salk vaccine Seven days later a bad headache caused him to skip basketball practice tell his dad that he was too ill to feed the calves and walk from barn to bed with shaky dizzying steps He never walked again By the next day burning with the fever of polio he was fastened into the claustrophobic cocoon of the iron lung that would be his home for the next three months Set among the hardscrabble world of the Missouri Ozarks sizzling with sarcasm and acerbic wit his memoir tells the story of his journey from the iron lung to life in a wheelchair Presley is no wheelchair hero no inspiring figure preaching patience and gratitude An army brat turned farm kid newly arrived in a conservative rural community he was immobilized before he could take the next step toward adulthood Prevented literally from taking that next step he became cranky and crabby anxious and alienated a rolling responsibility crippled not just by polio but by anger and depression a crip all over starting with the brain Slowly however despite the limitations of navigating in a world before the Americans with Disabilities Act he builds an independent life Now almost fifty years later having worn out wheelchair after wheelchair survived post polio syndrome and married the woman of his dreams Gary has redefined himself as Gimp more ready to act out than to speak up ironic perceptive still cranky and intolerant but more accepting more able to find joy in his family and his newfound religion Despite the fact that he detests pity can spot condescension from miles away and refuses to play the role of noble victim he writes in a way that elicits sympathy and

understanding and laughter By giving his readers the unromantic truth about life in a wheelchair he escapes stereotypes about people with disabilities and moves toward a place where every individual is irreplaceable **Shakespearean Drama, Disability, and the Filmic Stare** Grace McCarthy,2021-07-27 Shakespearean Drama Disability and the Filmic Stare synthesizes Laura Mulvey's male gaze and Rosemarie Garland Thomson's stare into a new critical lens the filmic stare in order to understand and analyze the visual construction of disability in adaptations of Shakespearean drama The book explores the intersections of adaptation studies film studies Shakespeare studies and disability studies to analyze twentieth and twenty first century representations of both physical disability and madness in global cinematic film television film and digital broadcast cinema in Shakespeare's works Shakespearean Drama Disability and the Filmic Stare argues that the filmic stare does not differentiate between male and female characters with disabilities or between powerful and powerless figures in disability representation This multi disciplinary volume is ideal for disability studies scholars Shakespeare scholars and those interested in adaptations of Shakespeare's famous works **Beyond Disability** Anne-Lyse Chabert,2025-12-03 How does a neurodegenerative disease transform one's perspective on life and society Beyond Disability is a collection of essays reflecting on life affected by a neurodegenerative disease The author shares her personal struggles and her philosophical approach to life intertwining a daily fight for survival with deep reflections on society interaction and self Through this process she offers valuable insights for researchers in human sciences while advocating for the importance of understanding disability The book ultimately delivers a message of living life fully despite circumstances **Narratives of Disability and Illness in the Fiction of J. M. Coetzee** Paweł Wojtas,2024-03-31 This study offers a detailed analysis of the fiction of J M Coetzee including the novels of the South African and Australian periods to demonstrate the development of Coetzee's engagement with the complexities of non normative embodiment In this illuminating monograph Paweł Wojtas demonstrates the extent to which Coetzee's multifaceted depictions of disability offer a sustained critique of the ableist implications of political violence and neoliberal inclusionism alike Exploring a wide range of notions such as ocularnormativism mute speech eco disability disability Gothic dismodernism autogerontography and bibliotherapy Wojtas shows how Coetzee's disabled textuality provokes a sustained meditation on various forms of cultural denigration of disability experience **Critical Disability Theory** Dianne Pothier,Richard Devlin,2011-11-01 People with disabilities in Canada inhabit a system of deep structural economic social political legal and cultural inequality a regime of dis citizenship Despite the widespread belief that Canada is a country of liberty equality and inclusiveness many persons with disabilities experience social exclusion and marginalization They are socially constructed as second class citizens Conventional understandings of disability are dependent on assumptions that characterize disability as misfortune and by implication privilege the normal over the abnormal Consequently it is presumed that societal organization based upon able bodied and minded norms is inevitable and that the best we can do is show sympathy or pity The essays Critical Disability Theory contend instead that achieving equality

for the disabled is not fundamentally a question of medicine or health nor is it an issue of sensitivity or compassion Rather it is a question of politics and of power and powerlessness This book argues that we need new ways to think about the nature of disability a new understanding of participatory citizenship that encompasses the disabled new policies to respond to their needs and a new vision of their entitlements Twenty four scholars from a variety of disciplines come together here to identify the problems with traditional approaches to disability and to provide new directions The essays range from focused empirical and experiential studies of different disabilities to policy analyses legal interrogations and philosophical reconsiderations The result will be of interest to policy makers professionals academics non governmental organizations and grassroots activists
