The Gift Of Cancer A Call To Awakening:

The Gift of Cancer Anne McNerney, 2004-01-01 This book is an autobiographical account of one woman's spiritual renaissance brought about by her own experience with cancer. Through her dreams and a realization of her own Spirit Anne McNerney was empowered to change. She became a passionate and vibrant personality dedicated to introducing other cancer patients to the power of spirituality. McNerney's examination of the spiritual cause and effect behind illness brings us one step closer to awakening and authenticity.

Bright-sided Barbara Ehrenreich, 2009-10-13 Barbara Ehrenreich's *Bright-sided* is a sharp-witted knockdown of America's love affair with positive thinking and an urgent call for a new commitment to realism. Americans are a positive people, cheerful, optimistic and upbeat; this is our reputation as well as our self-image. But more than a temperament, being positive we are told, is the key to success and prosperity. In this utterly original take on the American frame of mind, Barbara Ehrenreich traces the strange career of our sunny outlook from its origins as a marginal nineteenth-century healing technique to its enshrinement as a dominant, almost mandatory cultural attitude. Evangelical mega-churches preach the good news that you only have to want something to get it because God wants to prosper you. The medical profession prescribes positive thinking for its presumed health benefits. Academia has made room for new departments of positive psychology and the science of happiness. Nowhere, though, has bright siding taken firmer root than within the business community, where as Ehrenreich shows, the refusal even to consider negative outcomes like mortgage defaults contributed directly to the current economic crisis. With the mythbusting powers for which she is acclaimed, Ehrenreich exposes the downside of America's penchant for positive thinking. On a personal level, it leads to self-blame and a morbid preoccupation with stamping out negative thoughts. On a national level, it's brought us an era of irrational optimism resulting in disaster. This is Ehrenreich at her provocative best, poking holes in conventional wisdom and faux science and ending with a call for existential clarity and courage.

cancer A life changing and paradigm shattering experience Her cancer life changing experiences and recovery set her on a quest that led her to research many stories of cancer patients who died and stories of cancer patients who survived their cancer She was especially interested in the seemingly incurable terminal cancer patients who were send home by their doctors to die but are still alive today During the time she had cancer her life changed completely when she discovered that she was not the victim of her cancer but of her lack of consciousness and her limited thoughts and beliefs In fact that she was the creator of her life She knew that if this was true it meant that somehow she had created her cancer a thought she did not like at all but it also meant that it would be possible to turn her situation around and become the creator of her health so she did At the lowest point of her life when she believed she would die soon Yvette found the key to unlock the door of her cancer prison She was shown that LOVE was the way to set herself free Instead of fighting her cancer she started to embrace and love her cancer and started to look at the benefits and the gifts This way she was able to find back her inner strength which transformed her from being a powerless victim and a people pleaser believing that whatever she did was never good enough into the powerful and thriving woman she is today Cancer is a Gift is quite simply the most empowering book about cancer that I have ever read It illuminates the truth with a capital T My hope is that everyone diagnosed with or afraid of cancer finds the courage to read and live the message of this book Bravo Christiane Northrup This book shares what I have learned over the years There is survival behavior and you can learn from survivors about what helps them to exceed expectations and induce self healing When we are willing to ask not Why Me But what can I do with it Our lives and bodies respond to the message and indeed all the side effects of cancer are not bad Many people will tell you it was a wake up call and new beginning So read on and rebirth yourselves Bernie Siegel The capacity to see cancer as a challenge a quest and a journey toward a deeper affirmation of life love and all that matters is indeed a gift It is a gift Yvette gave herself and a gift she gives to all who read this book Yvette your message is profound compelling and evocative I applaud your work and celebrate your recovery David L Katz This wonderful book will give you the inspiration and determination to deal with and even overcome your cancer Brian Tracy A wake up call to all of us not just for anyone with cancer Read it Give it to everyone you know The message will get all of us through any dark night of the soul Dr Joe Vitale Yvette is a person with tremendous courage and talent Read what she writes listen to what she says and do what she suggests John Harricharan This is a beautiful and encouraging book I wish my mom had the opportunity to read this before her terminal diagnosis of brain cancer We might be celebrating her recovery instead of remembering her untimely passing I highly recommend it Colette Baron Reid It's not always easy to find the Gift in every moment especially when the gift is cancer Yvette has done just that in an inspiring uplifting and for all who enjoy the read life changing way Janet Bray Attwood **Women in Religion** Mary Pat Fisher,2007 Is the history of religion always the history of the beliefs and practice of men Not if one looks carefully notes Fisher comparative religion Gobind Sadan Institute who includes biographies of women and direct quotations to show how powerful
