

The Girl Behind The Keys 1903

L Reisser

The Girl Behind The Keys 1903:

Working Girls Katherine Mullin, 2016-05-05 *Working Girls* Fiction Sexuality and Modernity investigates the significance of a new form of sexual identity at the end of the nineteenth and beginning of the twentieth century Young women of the lower middle and working classes were increasingly abandoning domestic service in favour of occupations of contested propriety They inspired both moral unease and erotic fascination *Working Girls* considers representations of four highly glamorised yet controversial types of women worker telegraphists and typists in newly feminised offices shop assistants in the new department stores and barmaids in the new gin palaces of major British cities Economically emancipated more or less and liberated more or less from the protection and constraints of home and family shop girls barmaids typists and telegraphists became mass media sensations They energised a wide range of late Victorian and Modernist fiction This study will bring late Victorian and Modernist British writers into intimate conversation with a substantial new archive of ephemeral sources often regarded as remote from high art and its concerns popular fiction music hall and musical comedy beauty pageants and fairground exhibitions visual art and early film careers manuals magazine and periodical journalism moral reform crusades Royal Commissions and attempts at protective legislation *Working Girls* argues that these seductive yet perilous young women helped writers negotiate anxieties about the state of literary culture in the United Kingdom Crucially they preoccupy novelists who were themselves beleaguered by anxieties over cultural capital the shifting pressures of the literary marketplace or controversies about the morality of fiction often leading to the threat of censorship In articulating questions about sexual integrity *Working Girls* articulate often submerged questions about textual integrity and the role of the modern novel

Gender, Technology and the New Woman Lena Wanggren, 2017-04-28 This book examines late nineteenth century feminism in relation to technologies of the time marking the crucial role of technology in social and literary struggles for equality The New Woman the fin de siecle cultural archetype of early feminism became the focal figure for key nineteenth century debates concerning issues such as gender and sexuality evolution and degeneration science empire and modernity While the New Woman is located in the debates concerning the crisis in gender or sexual anarchy of the time the period also saw an upsurge of new technologies of communication transport and medicine As this monograph demonstrates literature of the time is inevitably caught up in this technological modernity technologies such as the typewriter the bicycle and medical technologies through literary texts come to work as freedom machines as harbingers of female emancipation

Culture on Two Wheels Jeremy Withers, Daniel P. Shea, 2016 Bicycles have more cultural identities than many realize functioning not only as literal vehicles in a text but also as vehicles for that text s themes ideas and critiques In the late nineteenth century the bicycle was seen as a way for the wealthy urban elite to reconnect with nature and for women to gain a measure of personal freedom while during World War II it became a utilitarian tool of the French Resistance and in 1970s China stood for wealth and modernization Lately it has functioned variously as the favored ideological steed of environmentalists a means

of community bonding and aesthetic self expression in hip hop and the ride of choice for bike messenger idolizing urban hipsters Culture on Two Wheels analyzes the shifting cultural significance of the bicycle by examining its appearances in literary musical and cinematic works spanning three continents and more than 125 years of history Bringing together essays by a variety of cyclists and scholars with myriad angles of approach this collection highlights the bicycle's flexibility as a signifier and analyzes the appearance of bicycles in canonical and well known texts such as Samuel Beckett's modernist novel Molloy the Oscar winning film Breaking Away and various Stephen King novels and stories as well as in lesser known but equally significant texts such as the celebrated Russian director Andrei Tarkovsky's film Sacrifice and Elizabeth Robins Pennell's nineteenth century travelogue A Canterbury Pilgrimage the latter of which traces the route of Chaucer's pilgrims via bicycle

The Girl Behind the Keys Tom Gallon, 2005-12-19 As the door was thrust open I heard as in a dream the voice of Neal Larrard calm and cool as ever dictating to me mechanically my fingers touched the keys and I began to type While I did so I felt that fearful dead thing pressing against my knees and felt also the muzzle of the revolver hard against my side First published in 1903 The Girl Behind the Keys is a delightful example of early detective fiction in which Bella Thorn a savvy young typist foils the nefarious plans of her employer a confidence man who exploits the hopes and fears infusing the popular imagination As Arlene Young's critical introduction demonstrates the story unites many of the cultural and literary motifs marking the dawn of the twentieth century when the Victorian era was giving way to modernity

An Introduction to the Detective Story LeRoy Panek, 1987 This book traces the origins of the detective story presents the literary and cultural forces that have influenced it follows its development and discusses some of the major authors who have contributed to its evolution and popularity Adapted from the author's Preface
