The Global Philosophy:

The Bibliographical Guide to the Global History of Philosophy , The Oxford Handbook of World Philosophy

Jay L. Garfield, William Edelglass, 2011-05-23 The Oxford Handbook of World Philosophy provides the advanced student or scholar a set of introductions to each of the world's major non-European philosophical traditions. It offers the non-specialist a way in to unfamiliar philosophical texts and methods and the opportunity to explore non-European philosophical terrain and to connect her work in one tradition to philosophical ideas or texts from another. Sections on Chinese Philosophy, Indian Philosophy, Buddhist Philosophy, East Asian Philosophy, African Philosophy, and Recent Trends in Global Philosophy are each edited by an expert in the field. Each section includes a general introduction and a set of authoritative articles written by leading scholars designed to provide the non-specialist a broad overview of a major topic or figure. This volume is an invaluable aid to those who would like to pursue philosophy in a global context and to those who are committed to moving beyond Eurocentrism in academic philosophy.

Handbook of Global Philosophies on AI Ethics Naresh Singh, Ram B. Ramachandran, 2025-08-15 This book offers an exploration of the diverse perspectives shaping the future of artificial intelligence (AI), highlighting the influence of non-Western thinking in its development. What would the impact be if AI were developed with the wisdom of Ubuntu, the harmony of Confucian thought, or the Indian principle of Vasudhaiva Kutumbakam (the world is one family at its core)? This thought-provoking collection brings together leading voices from around the globe to reimagine AI systems that are fair, ethical, and inclusive. Addressing critical issues such as bias, fairness, privacy, and existential risks, it challenges the status quo and envisions a future where AI reflects the values of all humanity, not just a select few. Exploring the influence of topics like religion, culture, and social movements, the book examines how these perspectives shape AI's application in industries such as finance, education, and the military, while underscoring the importance of establishing robust ethical guardrails. Whether you're a curious reader, a policy maker, a scholar, or a tech innovator, this book is your guide to understanding how different cultural perspectives can redefine AI ethics. It's time to ask: what kind of world do we want AI to build for us all?

Renewing Philosophy of Religion Paul Draper,J. L. Schellenberg,2017 This book is animated by a shared conviction that philosophy of religion needs to change thirteen new essays suggest why and how The first part of the volume explores possible changes to the focus of the field The second part focuses on the standpoint from which philosophers of religion should approach their field In the first part are chapters on how an emphasis on faith distorts attempts to engage

non western religious ideas on how philosophers from different traditions might collaborate on common interests on why the common presupposition of ultimacy leads to error on how new religious movements feed a naturalistic philosophy of religion on why a focus on belief and a focus on practice are both mistaken on why philosophy's deep axiological concern should set much of the field's agenda and on how the field might contribute to religious evolution The second part includes a qualitative analysis of the standpoint of fifty one philosophers of religion and also addresses issues about humility needed in continental philosophy of religion about the implausibility of claiming that one's own worldview is uniquely rational about the Moorean approach to religious epistemology about a Spinozan middle way between insider and outsider perspectives and about the unorthodox lessons we could learn from scriptures like the book of Job if we could get past the confessional turn in recent philosophy of religion The goal of the volume is to identify new paths for philosophers of religion that are distinct from those travelled by theologians and other scholars of religion The History of Philosophy George Henry Lewes,1871 *Living Options in World Philosophy* John Alexander Hutchison,1977 **The Oxford Handbook of World Philosophy** Jay L.
