*The Golden Ages of Africa* John G. Jackson,1987      **The Golden Age of Africa, the Classical Period ; And, Asian Legacy in Africa (part II)** Hassanali E. Mohamed,1990      The Golden Age of Black Nationalism, 1850-1925 Wilson Jeremiah Moses,1988 Discusses the work of Crummell DuBois Douglass and Washington looks at the literature of Black nationalism and identifies trends and goals of Black Americans      **The Golden Age of West African Civilization** Raphael Ernest Grail Armattoo,1946      **The Golden Age of Data Visualization** Kim Marriott,2024-09-04 We are living in the Golden Age of Data Visualization The COVID 19 pandemic has demonstrated how we increasingly use data visualizations to make sense of the world Business analysts fill their presentations with charts journalists use infographics to engage their readers we rely on the dials and gauges on our household appliances and we use mapping apps on our smartphones to find our way This book explains how and why this has happened It details the evolution of information graphics the kinds of graphics at the core of data visualization maps diagrams charts scientific and medical images from prehistory to the present day It explains how the cultural context production and presentation technologies and data availability have shaped the history of data visualization It considers the perceptual and cognitive reasons why data visualization is so effective and explores the little known world of tactile graphics raised line drawings used by people who are blind The book also investigates the way visualization has shaped our modern world The European Renaissance and the Scientific Revolution relied on maps and technical and scientific drawings and graphics influence how we think about abstract concepts like time and social connection This book is written for data visualization researchers and professionals and anyone interested in data visualization and the way we use graphics to understand and think about the world      **The Other Side of the Story** Djehuti-Ankh-Kheru,2008      **British Piracy in the Golden Age, Volume 3** Joel H Baer,2024-12-11 Providing a comprehensive view of Golden Age piracy this edition includes descriptions of the actions of individuals alongside contemporary discussions of the piracy problem through books journals newspaper articles essays reviews proposals pamphlets and sermons from Britain and its colonies      **Missionaries in the Golden Age of Hollywood** Douglas Carl Abrams,2022-12-15 This book examines major British and American missionary films during the Golden Age of Hollywood to explore the significance of race gender and spirituality in relation to the lives of the missionaries portrayed in film during the middle third of the twentieth century Film both influences and reflects culture and racial gender and religious identities are some of the most debated issues globally today In the movies explored in this book missionary interactions with various people groups reflect the historical changes which took place during this time      **Sport in the Golden Age of China, Volume 1** Lingyu Xie,2013-12-03 The purpose of was to examine the evidence of sport in the so called Golden Age of ancient China and to place that evidence in a cultural context The particular theoretical approach was a structuralist and functionalist one its basic assumption being that sport as a social institution is to be understood in terms of its relationship to

other components in the system and thus sport can be seen as reinforcing or supporting other dimensions of the system A theoretical model proposed by Salter and Jones was utilized When evidence of sports and the cultural components of the Salter and Jones model were subject to analysis activities related to cultural identification were in the majority followed by those classified as being of social interaction then political ceremonial economic and domestic As sports are held to be a microcosm of society then the conclusion would have to be that the culture was one that stressed the ideas standards knowledge and techniques of that culture and emphasised the reciprocal relationship of human beings Political and ceremonial type sports also loomed large in the culture demonstrating perhaps the subservience required of a majority of the population and the firm control by those in power to control that population Four hypotheses were advanced and upheld First that sporting activities in the Golden Age of ancient China were influenced by both enculturation and acculturation Second that the preponderance of sport was related to the upper classes Third that the majority of the activities were of the informal variety some of them being purely recreational Fourth the majority of the activities were for males which corresponds with the male dominant traditional culture of China though the point is valid that their involvement exceeds that of any prior period in Chinese history Fifth that certain activities were restricted through climate and geography Sport in the Golden Age did not stand separate from life rather it influenced and was in turn influenced by the various cultural components Sport was clearly a social phenomenon which extended into politics even into foreign policy the military and religion and formed close relationships with these various components It would appear that sport was a reasonable mirror or microcosm of culture in the Golden Age of ancient China
