The Golden Turkey Awards:

The Golden Turkey Awards Harry Medved, Michael Medved, 1980 **The Golden Turkey Awards** Harry Medved, 1975 **Son of Golden Turkey Awards** Harry Medved, Michael Medved, 1986 **The Worst We Can Find** Dale Sherman, 2023-06-15 Had you tuned in to the small television station KTMA on Thanksgiving Day 1988 you would have been one of the few witnesses to pop culture history being made. On that day viewers in and around St Paul Minnesota were treated to a genuine oddity in which a man and his robots trapped within a defiantly DIY sci fi set cracked jokes while watching a terrible movie. It was a cockeyed twist on the local TV programs of the past in which a host would introduce old cheaply licensed films. And though its origins may have been inauspicious Mystery Science Theater 3000 captured the spirit of what had been a beloved pastime for generations of wags, wiseacres and smartalecks and would soon go on to inspire countless more. The Worst We Can Find is a comprehensive history of and guide to MST3K and its various offshoots including Rifftrax Cinematic Titanic and The Mads Are Back whose lean crew of writers, performers and puppeteers have now been making fun of movies for over thirty years. It investigates how riffing of films evolved, recounts the history of these programs and considers how a practice guaranteed to annoy real life fellow moviegoers grew into such a beloved long lasting franchise. As author Dale Sherman explains creative heckling has been around forever but MST3K and its progeny managed to redirect that art into a style that was both affectionate and cutting, winning the devotion of countless fans and aspiring riffers.

Hollywood Science Sidney Perkowitz, 2007-12-11 Whether depicting humans battling aliens or a brave geologist saving lives as a volcano erupts science fiction films are an exciting visual and sensuous introduction to the workings of science and technology. These films explore a range of complex topics in vivid and accessible ways from space travel and laser technology to genetic engineering, global warming and the consequences of nuclear weaponry. Though actual scientific lab work might not be as exciting science fiction is an engaging yet powerful way for a wide audience to explore some of the most pressing issues and ideas of our time. In this book a scientist and dedicated film enthusiast discusses the portrayal of science in more than one hundred films including science fiction, scientific biographies and documentaries. Beginning with early films like Voyage to the Moon and Metropolis and concluding with more recent offerings like The Matrix, War of the Worlds, A Beautiful Mind and An Inconvenient Truth, Sidney Perkowitz questions how much faith we can put into Hollywood's depiction of scientists and their work, how accurately these films capture scientific fact and theory, whether cataclysms like our collision with a comet can actually happen and to what extent these films influence public opinion about science and the future. Movies especially science fiction films temporarily remove viewers from the world as they know it and show them the world as it might be, providing special perspective on human nature and society. Yet Hollywood science can be erroneous, distorting fact for dramatic effect and stereotyping scientists as remote and nerdy, evil or noble, doing little to improve the relationship between science and society. Bringing together history, scientific theory and humorous observation, Hollywood Science

features dozens of film stills and a list of the all time best and worst science fiction movies Just as this genre appeals to all types of viewers this book will resonate with anyone who has been inspired by science fiction films and would like to learn how fantasy compares to fact **Trash Cinema** Guy Barefoot,2017-11-21 This volume explores the lower reaches of cinema and its paradoxical appeal It looks at films from the B movies of the 1930s to the mockbusters of today and from the New York underground to the genre variations of Turkey s Yesil am studios and their YouTube afterlife Critically examining the reasons for studying denigrating or celebrating the detritus of film history it also considers the place of a trash aesthetic within and beyond 1960s American avant garde and looks at the cult of trash in the fanzines of the 1980s It draws on debates about cult paracinema and camp arguing that trash cinema exists in relation to these but brings with it a particular history that includes the ordinary as well as the strange Trash Cinema places these debates and the strand of self proclaimed low culture that emerged in the second half of the twentieth century within a historical and international perspective It focuses on American cinema history but addresses Eurotrash reception as well as the related field of garbology examining trash cinema as a distinct but fluid category
