**Dope Advice** Gail Beck,2025-08-26 With marijuana now legal in Canada and many US states parents are increasingly seeking reliable and accurate information about its effects on their teens and young adults Written by Gail Beck MD a leading child psychiatrist with extensive experience working with adolescents and their families Dope Advice provides a pragmatic science based approach to navigating and understanding the complexities of legal marijuana use in the modern world Grounded in the latest research this guide helps parents grasp how marijuana affects the adolescent brain differently from the adult brain highlighting both its psychological and physical impacts The book draws on current research studies to provide a clear evidence based overview of the effects of marijuana including its connection to existing mental health conditions and the potential for marijuana induced psychosis It also presents recent clinical information on key topics such as vaping edibles and addiction empowering parents to engage in informed constructive conversations with their children about marijuana use [Logic and Sin in the Writings of Ludwig Wittgenstein](#) Philip R. Shields,1998-02-28 Demonstrates that ethical and religious concerns inform even the most technical writings on logic and language This text also shows that for Wittgenstein the need to establish clear limitations is both a logical and an ethical demand revealing a religious view of the world in his philosophy

**Effective Leadership Communication** Mary Lou Higgerson,Teddi A. Joyce,2007-01-15 Conflict can appear with varying degrees of intensity or hostility but if ignored or managed ineffectively it can slow or jeopardize an institution s success Chairs and deans who have leadership responsibilities to both administrators and faculty often find a significant portion of their jobs devoted to conflict management Their leadership success depends on their ability to effectively manage a variety of conflict laden situations and negotiate people s varying needs and personalities This book at its core is about communication strategies that support effective leadership First it shows how to establish a foundation for effective leadership communication next it discusses developing a fair and effective leadership communication style and finally it shows how to employ leadership communication to manage especially difficult people from prima donnas to pot stirrers Each chapter contains a series of questions and prompts to guide readers through a hypothetical but realistic situation and encourages them to cultivate and practice the first person participant and third person observer roles By moving between these two perspectives readers will gain more insight into their own style of managing conflict and understanding of leadership This skill also permits academic leadership to have more strategic control over the communication in a particular situation thus empowering them to feel and to be more in control in every situation

Sellnow, Robert R.

Ulmer, Matthew W. Seeger, Robert Littlefield, 2008-12-05 Coordination of risk assessments and risk communication strategies requires information sharing and establishing networks of working relationships between groups and agencies. Establishing these relationships necessitates overcoming institutional cultural and political boundaries. Significant barriers exist between regulatory agencies and industry groups. Traditionally these groups have mistrusted one another and cooperation and collaboration including sharing information correspondingly has been limited. The adoption of radio frequency identification technology for tracking livestock for example has been met with significant resistance due in part to mistrust between regulatory agencies and producers. In the food industry the need for coordination has been enhanced by industry integration and globalization of both markets and production. In the case of GM foods discussed earlier disagreements between U.S. European Union and Canadian regulatory agencies fueled the debate over the safety of GM crops. Overcoming institutional and cultural barriers and mistrust is necessary to create consistency in risk messages. Open communication and information sharing can help clarify where risk perceptions diverge and identify points of convergence. The outcome may not be universal agreement about risks but convergence around the general parameters of risk. Summary: These best practice strategies of risk communication are not designed to function as distinct steps or isolated approaches. Rather than being mutually exclusive they serve to complement one another and create a coherent approach to confronting risk communication problems.
