Tame Wilderness:

The Great New Wilderness Debate J. Baird Callicott, Michael P. Nelson, 1998 The Great New Wilderness Debate is an expansive wide ranging collection that addresses the pivotal environmental issues of the modern era. This eclectic volume on the varied constructions of wilderness reveals the recent controversies that surround those conceptions and the gulf between those who argue for wilderness preservation and those who argue for wise use. J. Baird Callicott and Michael P. Nelson have selected thirty nine essays that provide historical context range broadly across the issues and set forth the positions of the debate. Beginning with such well known authors as Ralph Waldo Emerson, Henry David Thoreau, John Muir and Aldo Leopold the collection moves forward to the contemporary debate and presents seminal works by a number of the most distinguished scholars in environmental history and environmental philosophy. The Great New Wilderness Debate also includes essays by conservation biologists, cultural geographers, environmental activists and contemporary writers on the environment.

The Truths of Monsters Ildikó Limpár, 2021-03-18 As monster theory highlights monsters as cultural symbols guarding the borders that society creates to protect its values and norms. Adolescence is the time when one explores and aims at crossing borders to learn the rules of the culture that one will fit into as an adult. Exploring the roles of monsters in coming of age narratives and the need to confront and understand the monstrous this work explores recent developments in the presentation of monsters such as the vampire, the zombie and the man made monster in maturation narratives then moves on to discuss monsters inhabiting the psychic landscapes of child characters. Finally it touches on monsters in science fiction in which facing the monstrous is a variation of the New World narrative. Discussions of novels by M. R. Carey, Suzanne Collins, Neil Gaiman, Theodora Goss, Daryl Gregory, Sarah Maria Griffin, Seanan McGuire, Stephenie Meyer, Patrick Ness and Jon Skovron are complemented by analysis of television series such as Buffy the Vampire Slayer and Westworld.

Huygens and Hofwijck Kees Leer, Henk Boers, 2025-10-01 Constantijn Huygens was a poet, composer and connoisseur of art and the classics. He was also secretary and confidant to three princes of Orange for 62 years. Hofwijck was also the place where Constantijn's son Christiaan spent a significant part of his life. Christiaan Huygens was a member of the Royal Society of London for the Improvement of Natural Knowledge and became one of the greatest inventors and scientists. At the end of his life at Hofwijck he wrote *Cosmotheoros* his magnum opus on the universe. At Huygens's Hofwijck we look at the seventeenth century through the eyes of these two versatile men. With Constantijn and Christiaan the story is about literature, art, music, politics, the House of Orange, science and life at a seventeenth century country estate.
