**Enigma from Tantalus** John Brunner, 2011-09-29 We won't be landing anywhere just yet Waters said to the other passengers on the spaceship Fulmar I was pretty mystified by this story of mechanical breakdown so I've been checking up He hefted his little box I've spent the past half hour successfully tapping your subspace circuits Captain so I know the truth and I propose to share it with everyone We're not to land We're to orbit in space indefinitely Beloved Sister Dorcas's screams pierced the quiet You see Waters continued holding up his hand for silence this is being done on the direct orders of Master Brand you don't know the name He glanced inquiringly around No Well he happens to be one of the powers of Earth and there is nobody in the galaxy to overrule him First published 1965

**Tantalus Depths** Evan Graham, 2022-09-27 An AI cannot lie An AI must obey human commands An AI cannot kill These are the laws SCARAB has broken and only Mary knows The Tantalus 13 survey expedition went off the rails as soon as Mary Ketch and the crew of the Diamelen learned that the thing beneath their feet wasn't a planet An impossibly vast and ancient artificial structure lies below hidden from the universe under a facade of cratered stone SCARAB arrived on Tantalus 13 two years ago An artificially intelligent self-constructing factory it was supposed to aid the crew in their mission to meet their every need But when erratic behavior in the AI coincides with a series of deadly accidents among the crew Mary faces the horrifying possibility that SCARAB has gone rogue With the AI watching her every move any attempt to warn the crew could be disastrous But SCARAB knows far more about the Tantalus 13 enigma than it lets on and the secrets it's willing to kill for may have dire implications for all humankind
