Tao Te Ching Lao Tzu,2021-02-17 Limited Time Promotional Offer Tao Te Ching The Classic Book of The Way And Virtue The Tao Te Ching is an anti authoritarian treatise which posits that the way of virtue lies in non action Wu Wei through a recognition of the natural universal force known as the Tao The Tao flows without effort and like water goes where it will without striving and effects change and growth To be virtuous one should emulate the Tao and engage in non action not forcing an effect or outcome Human made laws it claims cannot make one virtuous and cannot contribute to good behavior inner peace or empathy with others because they are not in tune with nature It is only by

recognizing the Tao and one's connection to it and all things that one may achieve these goals To recognize the Tao one must know what it is and so it is defined in the first chapter The Tao The Way that can be spoken of is not the Constant Tao The

name that can be named is not a Constant Name Nameless is the origin of Heaven and Earth The named is the Mother of all things Thus the constant void enables one to observe the true essence The constant being enables one to see the outward

manifestations These two come paired from the same origin But when the essence is manifested it has a different name This same origin is called The Profound Mystery As profound the mystery as it can be It is the Gate to the essence of all life Lao

Tzu The Old Master Lao Tzu was an ancient Chinese philosopher and poet well known for penning the book Tao Te Ching He was the founder of philosophy of Taoism a religious and ethical custom of ancient China He is largely respected as a religious

deity in various traditional Chinese religious schools of thought He is also believed by some to be an older contemporary of the famous philosopher Confucius The Tao Te Ching literally meaning The Way and Its Power presents the idea of Tao as

being the end all and be all of existence It is extremely powerful yet down to earth It is the source of all being in the world

The book intends to guide people on how to return to the laws and ways of nature to maintain the balance of the Tao Lao Tzu

s philosophy was a simple one He was against putting effort and striving as he thought struggle is not only futile but also hinders productivity In his theory of wu wei he advises to simply do nothing By this he means not to go against the forces of nature wait for the gush of events nature brings to you and dive right in He advised not to struggle to change the natural order of things but to bring spontaneity to one s actions as one holds on to the nature s way of life Followers of Taoism believe that striving for nothing will never lead them to failure The one who has never failed is always successful thus becoming powerful Lao Tzu s journey began as he set foot towards the western border of China currently Tibet He was saddened by what he saw around him men being diverted away from nature and the goodness it brings A guard he met on the border asked Lao to write down his teachings as he went This is when he wrote the famous Tao Te Ching a 5 000 character account of his thoughts and philosophical ideas *Tao Te Ching* Laozi,1985 Book Jacket Status Jacketed Written during the golden age of Chinese philosophy and composed partly in prose and partly in verse the Tao Te Ching is surely the most terse and economical of the world s great religious texts In a series of short profound chapters it elucidates the idea of the Tao or the Way an idea that in its ethical practical and spiritual dimensions has become essential to the life of China s enormously powerful civilization In the process of this elucidation Lao tzu both clarifies and deepens those central religious mysteries around which our life on earth revolves Translation of the Ma Wang Tui Manuscripts by D C Lau

Its view of the mind and its place in the world paradoxically simple and profound continue to perplex, excite and inspire today. The Tao and Its Characteristics also known as The Tao Te Ching or The Book of Tao has traditionally been attributed to Lao Tzu a Chinese philosopher of the 6th century BC. The ancient book's exact origins and authorship are still subject to debate including some wondering if it was written by a single author or is the accumulated wisdom of many. The text seeks a peeling away of artificial constraints of society and the mind in order to return to the natural balance of the Tao the essence of all things. This is described as the way an immersion in the present moment and a freedom from desire that liberates the self from purely selfish motivations creating a balanced state of humble simplicity and peace of mind. Poetic and shot through with thought provoking paradox the text invites absorption, consideration and interpretation. Ceaselessly influential across cultures and centuries The Tao and Its Characteristics has at one time or another impacted religious thought, political theory, philosophy and an array of artists working in everything from poetry to painting to music. Thousands of years old the text and its message are truly timeless.
