Tapping The Sun:

Wiretapping and Electronic Surveillance in America, 1862-1920 Kerry Segrave, 2014-09-06 Following the 2013 revelations of Edward Snowden Americans have come to realize that many of us may be under surveillance at any time It all started 150 years ago on the battlefields of the Civil War where each side tapped the other s telegraph lines It continued in 1895 when the New York Police Department began to tap telephone lines It was 20 years before it was public knowledge and by then the NYPD was so busy tapping they had a separate room set aside for the purpose Wiretapping really took off in 1910 when the dictograph the first ready to use bug that anyone could operate arrived making it easier still to engage in electronic surveillance Politicians bugged other politicians corporations bugged labor unions stockbrokers bugged other stockbrokers and the police bugged everybody And we were well on our way to the future that George Orwell envisioned the world Edward Snowden revealed Big Brother had arrived

Direct Instruction: A practitioner's handbook Kurt Engelmann, 2024-04-05 Direct Instruction DI is a powerful instructional approach designed to ensure that students master critical skills and content required for more advanced learning Although DI has existed since the late 1960s there are many common misconceptions about the approach its potential to enhance student learning and the way its proper implementation facilitates students academic success This book provides a systematic explanation of the Direct Instruction methodology and DI program design as it outlines a roadmap for teachers and school leaders on how to implement DI successfully Divided into three main sections the first section describes DI as a coherent and complete teaching and learning system that contrasts DI with lower case di or explicit instruction which focuses on effective instructional delivery techniques The second section provides a step by step guide to implementing DI The third section is devoted to cautions about implementing DI This section reinforces the notion that the physical possession of the DI curricula does not by itself lead to student success Those who adopt DI need to ensure that it is implemented with fidelity for the benefit of their students who are reliant on them to provide them with the means to achieve their academic potential so they may lead healthy productive lives
