### *Combating Poverty and Social Exclusion in European Union Law*

Ane Aranguiz,2022-03-30 This book examines the potential role of European Union law in combating poverty and social exclusion in the European Union Anti poverty strategies have been part of the European Union agenda for decades Most saliently over a decade ago the EU s Member States pledged to lift 20 million people out of poverty In spite of this commitment the EU did not even meet a quarter of this target and over 113 million people still were at risk of poverty and social exclusion by the end of 2020 This book addresses the incongruence between a quite developed EU policy strategy and a well embedded legal objective on the one hand and the lack of direct legal action on the other Analysing the role of social policy instruments fundamental rights and the constitutional framework of the European Union it makes a detailed case for a contribution of EU law to the policy objective of combating poverty and social exclusion Drawing on work in law politics social policy and economics this book will interest scholars and policymakers in the areas of EU law labour and social security human rights political science and social and public policy The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution CC BY 4 0 license

**and Social Exclusion in the EU** Matteo Jessoula,Ilaria Madama,2018-06-14 In the field of anti poverty policies the interplay between the Europe 2020 overarching strategy and the Semester have marked major discontinuity vis vis the Open Method of Coordination for social protection and social inclusion Social OMC of the Lisbon phase This book therefore asks whether and how Europe matters in the fight against poverty and social exclusion by assessing the emergence and possible institutionalisation of a European multi level multi stakeholder and integrated policy arena in the new institutional framework Supranational developments multi level interactions as well as the strategy effects at the national level are analysed in six European countries Belgium Germany Italy Poland UK and Sweden with the aim to identify the key factors affecting the implementation of the Europe 2020 anti poverty strategy This book will be of key interest to students scholars

and practitioners in social policy political science and European governance and more broadly to European Union politics European integrations studies sociology and economics Europe's Vulnerabilities in Modern Conflict Artur Victoria,2025-11-09 Europe stands at a crossroads in its geopolitical evolution facing a spectrum of security threats that span the traditional and the novel the visible and the covert For decades the continent benefited from a relatively stable security environment under the protective umbrella of multilateral institutions and international norms This stability however created structural weaknesses defence budgets stayed low critical infrastructure aged without adequate protection and the urgency to modernise military capabilities waned The result is a Europe that is economically powerful but strategically fragile a continent whose institutions were built for peace yet must suddenly contend with a world slipping back into great power rivalry asymmetric conflict and technological disruption The vulnerabilities Europe faces today are not confined to a single domain Conventional military threats have resurfaced in ways many policymakers once believed impossible after the Cold War Terrorism though less dominant in headlines remains a persistent and decentralised danger that exploits social fragmentation and gaps in intelligence coordination Hybrid warfare deliberate ambiguity disinformation economic coercion and covert action targets the political cohesion that the European Union relies on Cyber warfare meanwhile cuts across every modern system from energy grids and financial institutions to hospitals and government services exposing uncomfortable interdependencies and inconsistent standards of protection These challenges are not occurring in isolation They interact and amplify one another A cyberattack on energy networks can destabilise a country's political environment creating opportunities for external actors to launch disinformation campaigns A terrorist incident can inflame polarisation weaken trust in institutions and make it easier for hostile states to spread influence operations A conventional military threat can be paired with hybrid tactics designed to slow European decision making undermine solidarity and fracture alliances Modern conflict is not neatly compartmentalised it is fluid blended and strategically synchronised Europe must therefore confront not only individual threats but also the combined effect of multidimensional pressure
