Telling Women's Lives Judy Long,1999-05 For centuries the great man format and masculine discourse of biography and autobiography have eclipsed women If we accept this history we remain ignorant of Lady Sarashina a Japanese woman of the Han period whose book survives from the 11th century We overlook Margaret Cavendish and Dame Julian two early English autobiographers And we fail to consider sufficiently slave narratives oral histories or lesbian coming out stories *Telling Women's Lives* assesses existing traditions of autobiography and biography in search of a method capable of conveying the distinctive content of women's lives while retaining the tenor of feminine subjectivity Drawing on feminist research methodologies of the past two decades as well as anthropology and sociology Long paves the way for the formulation of an emergent feminist methodology for telling women's lives This highly original study seeks to revise and recreate the genre so as to accommodate a feminine discourse narrator reader and subject The messiness of women's lives the daily work and detail that men have programmatically excluded acquires new meaning as Long develops here an innovative theory of sociobiography **Let Me Continue to Speak the Truth** Elizabeth Loentz,2007-12-01 In 1953 Freud biographer Ernest Jones revealed that the famous hysterical Anna O was really Bertha Pappenheim 1859-1936 the prolific author German Jewish feminist pioneering social worker and activist Elizabeth Loentz directs attention away from the young woman who arguably invented the talking cure and back to Pappenheim and her post Anna O achievements Her writings especially reveal her to be one of the most versatile productive influential and controversial Jewish thinkers and leaders of her time Pappenheim's oeuvre includes stories plays poems prayers travel literature letters essays speeches and aphorisms She translated Mary Wollstonecraft's *Vindication of the Rights of Women* as well as the *Memoirs of Gluckel of Hameln* and other Old Yiddish texts into German She was discussed as both writer and newsmaker in German Jewish newspapers of every religious and political affiliation and in German feminist publications As founder and leader of the League of Jewish Women in Germany and the international League of Jewish Women she was at the forefront of the campaign to combat human trafficking and forced prostitution A pioneer of modern Jewish social work she founded a home for at risk girls and unwed mothers and advocated on behalf of Jewish women children refugees and immigrants Her accomplishments are all the more remarkable because she attained them after struggling to recover from the debilitating mental illness chronicled in Freud and Breuer's *Studies on Hysteria* 1895 Loentz examines how Pappenheim engaged in words and deeds with the key political social and cultural issues concerning German Jewry in the early decades of the twentieth century the status of the Yiddish language Zionism the conversion epidemic responses to the plight of Eastern European Jews and Jewish spirituality Pappenheim's unique approach to each of these issues balanced allegiances to feminism the Jewish religion and German culture Loentz also explores how biographers and artists have rediscovered Pappenheim rewritten her life story and renegotiated her identity **Women Voicing Resistance** Suzanne McKenzie-Mohr,Michelle N. Lafrance,2014-03-26

Feminist scholars have demonstrated how dominant discourses and master narratives frequently reflect patriarchal influence thereby distorting and depoliticizing women's storying of their own lives. In this groundbreaking volume a number of internationally recognized researchers working across a range of disciplines provide a detailed examination of women's attempts to counter story their lives when prevailing discourses are unhelpful or indeed harmful. As such it is an exploration of women's agency and resistance which highlights the challenges and complexities of such discursive work. The chapters explore women's resistance across a wide range of experiences including intimate partner violence, casual sex, depression, premenstrual change, disordered eating, lesbian identity, women's work in male dominated spaces, rape and child birth. Each chapter combines theoretical analyses with illuminating first hand accounts and elaborates practical implications that provide directions for individual and social change. Providing an incisive and comprehensive exploration of discourse, oppression and resistance that cuts across domains of women's everyday lives, *Women Voicing Resistance* will be of great interest to students, scholars and practitioners in the fields of psychology, gender studies, women's studies, sociology and social work.

(Re)Presenting Wilma Rudolph Rita Liberti, Maureen M. Smith, 2015-05-29 Wilma Rudolph was born black in Jim Crow Tennessee. The twentieth of 22 children, she spent most of her childhood in bed suffering from whooping cough, scarlet fever and pneumonia. She lost the use of her left leg due to polio and wore leg braces. With dedication and hard work, she became a gifted runner, earning a track and field scholarship to Tennessee State. In 1960 she became the first American woman to win three gold medals in a single Olympic Games. Her underdog story made her into a media darling and she was the subject of countless articles, a television movie, children's books, biographies and she even featured on a U.S. postage stamp. In this work, Smith and Liberti consider not only Rudolph's achievements but also the ways in which those achievements are interpreted and presented as historical fact. Theories of gender, race, class and disability collide in the story of Wilma Rudolph and Smith and Liberti examine this collision in an effort to more fully understand how history is shaped by the cultural concerns of the present. In doing so, the authors engage with the metanarratives which define the American experience and encourage more complex and nuanced interrogations of contemporary heroic legacy.

Hesse-Biber,2007 The topic feminist research has too often been neglected in standard research methods books The Handbook of Feminist Research represents the establishment of a new tradition or paradigm in viewing how the research process is implemented Feminist researchers bring unique epistemological and methodological perspectives to the research process Feminists approach to methodology allows for new types of questions about women s lives and those of other ed marginalized groups to be addressed within their respective fields of research This Handbook stresses the interconnections between epistemology methodology and methods They are not de linked from each other but work together in dynamic ways to produce new knowledge and this openness itself is also characteristic of how feminist researchers approach their work Feminists engage synergistically with all three aspects of the research process epistemology methodology and method Through a synergistic connection between these elements of research epistemology methodology and method we find that feminist research often shapes new research endeavors that are greater than the sum of their parts In other words while traditional research employs these components of research the synergistic engagement of these components in feminist research questions the status quo aiming to raise our consciousness about how we do research Looking at the selections provided in this Handbook we are able to look at feminist research its implementation of synergistic use of epistemology methodology and method and the resulting qualities of feminist research in practice **Asian Folklore Studies** ,2005
