Confucianism and American Philosophy Mathew A. Foust, 2017-03-15 A comparative analysis of Confucianism and the American Transcendentalist and Pragmatist traditions In this highly original work Mathew A Foust breaks new ground in comparative studies through his exploration of the connections between Confucianism and the American Transcendentalist

and Pragmatist movements In his examination of a broad range of philosophers including Confucius Mencius Xunzi Ralph Waldo Emerson Henry David Thoreau Charles Peirce William James and Josiah Royce Foust traces direct lines of influence from early translations of Confucian texts and brings to light conceptual affinities that have been previously overlooked Combining resources from both traditions Confucianism and American Philosophy offers fresh insights into contemporary problems and exemplifies the potential of cross cultural dialogue in an increasingly pluralistic world Authoritative and insightful this book fills two lacunae in East West comparative studies First it rounds out several general thematic connections by taking a broad view rather than focusing narrowly on just one figure from each tradition And in so doing it sheds much needed light on Confucian comparisons that have been previously understated or completely unnoticed

Christopher C Kirby editor of *Dewey and the Ancients Essays on Hellenic and Hellenistic Themes in the Philosophy of John Dewey* *Confucian Propriety and Ritual Learning* Geir Sigurðsson, 2015-01-08 A reconsideration of the Confucian concept li ritual or ritual propriety one that references Western philosophers as well as the Chinese context Geir Sigurðsson offers a reconsideration of li often translated as ritual or ritual propriety one of the most controversial concepts in Confucian philosophy Strong associations with the Zhou period during which Confucius lived have put this concept at odds with modernity's emphasis on progressive rationality and liberation from the yoke of tradition Sigurðsson notes how the Confucian perspective on learning provides a more balanced understanding of li He goes on to discuss the limitations of the critique of tradition and of rationality's claim to authority referencing several Western sources notably Hans Georg Gadamer John Dewey and Pierre Bourdieu An exposition of the ancient Chinese worldview of time and continuous change further points to the inevitability of li's adaptable and flexible nature Sigurðsson argues that Confucius and his immediate followers did not endorse a program of returning to the Zhou tradition but rather of reviving the spirit of Zhou culture involving active and personalized participation in tradition's sustention and evolution

The History of Education in the Spring and Autumn Period and the Warring States Period Li Shi, The book is the volume of The History of Education in the Spring and Autumn Period and the Warring States Period among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states

during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China

Political Liberalism, Confucianism, and the Future of Democracy in East Asia Zhuoyao Li, 2020-04-17 This book contributes to both the internal debate in liberalism and the application of political liberalism to the process of democratization in East Asia Beyond John Rawls original intention to limit the scope of political liberalism to only existing and well ordered liberal democracies political liberalism has the potential to inspire and contribute to democratic establishment and maintenance in East Asia Specifically the book has two main objectives First it will demonstrate that political liberalism offers the most promising vision for liberal democracy and it can be defended against contemporary perfectionist objections Second it will show that perfectionist approaches to political Confucianism suffer from practical and theoretical difficulties Instead an alternative model of democracy inspired by political liberalism will be explored in order to achieve a multivariate structure for citizens to come to terms with democracy in their own ways to support a neutral state that ensures the establishment and stability of democracy and to maintain an active public role for Confucianism to prevent it from being banished to the private sphere This model represents a more promising future for democracy in East Asia
