10 Steps to Happiness Janine Lattimore, 2019-07-11 The key reason people are not happy is because they are not happy with themselves This is the foundation If you are not happy in yourself then you will struggle to be truly happy in any aspect of your life 10 Steps to Happiness takes you through a clear quick and easy process to reduce stress and overwhelm begin to accept yourself as you are and give yourself the love you seek and to create more fulfilling connections with others I have been passionate about holistic health and personal growth for 30 years yet when I sunk into depression again and my second husband left me just before my 44th birthday I knew I was missing something I realised that if I wanted to stop repeating the same hurtful patterns in my life that I had to start deeply loving myself I learned that I wasn't getting the love respect and care that I craved because I didn't think I was lovable attractive or worthy This book is essentially a summary of the processes I used and refined as I embarked on my journey out of depression illness marital separation and fear and began to create true happiness and fulfilment in my life My aim for this book is to give you effective tools that are quick and easy to use to make your journey to self love and fulfilment simpler and faster than mine The processes in this book are the foundational ones that I practice daily or return to frequently Some may seem simple but they work Test them and see for yourself I offer you this roadmap with love and invite you to join me in taking these 10 steps to happiness
