Tending Lives:

Virginia Woolf A Literary Life J. Mepham, 1991-12-13 This book tells the story of Virginia Woolf's literary career. It emphasises the importance of her ownership of the Hogarth Press whereby she gained the freedom to write as she pleased. This made possible a career of extraordinary formal innovations. Each of her books was unlike every other. Her career was a series of different choices, statements and masks. This book attempts to discover why at each point in her career she chose to write as she did.

Everyday Creativity Kirin Narayan, 2016-11-22 This book by anthropologist Kirin Narayana is a thoughtful exploration of Kangra women's singing over the past thirty years. It is part ethnography, part travelogue, part musical discovery, part poetry and poetry translation, and three parts memoir. Like the intricate geometries of mandala patterns drawn in the courtyard outside a home or clothes meticulously stitched well-crafted songs, identify a woman as smart, adept and skilled, and so are a source of status. Kangra singers speak of singing as enriching their lives; the well-being generated by shared songs brings feelings of accomplishment, companionship, happiness, solace, peacefulness, even good health and recovery from illness. The concept Narayan keeps finding herself returning to, however, is creativity, the everyday creativity that brings well-being. In this book, the second in our new Big Issues in Music series, Narayan beautifully draws out the particulars of everyday creativity in women's singing in Kangra, as well as giving readers the more general gift of a new way of thinking of creativity in music and the arts, in crafts and in everyday life.

Death Makes Life Possible Marilyn Schlitz, Ph.D., 2015-05-01 Our beliefs about what happens when we die define how we live today. And more and more of us are discovering a radical truth: when we release our fear of death, we open to an immensely richer life, right here and now. But how do we incorporate this profound insight into our everyday lives? With *Death Makes Life Possible*, Dr Marilyn Schlitz presents a wealth of teachings and practical guidance on how to turn this taboo topic into a source of peace, hope, connection and compassion. Featuring contributions by eminent scientists and scholars, spiritual leaders and devout skeptics, health and healing practitioners, and men, women and children from all walks of life, this far-reaching work reveals the myriad ways that we grow and change by expanding our perspectives on the ultimate mystery facing each one of us.

Life Valentin Matcas, 2014-04-20 You are an intelligent living human being, and in order to assure your meaning and success throughout life, you have to know everything about life everywhere, in all forms and realities. You have to learn everything about nature, society and organic life, about the true origins of life, about creating life, and about the divine and about your own meaning in life and in the world as an intelligent living human being. While these are not random ideas, but these specific needs for

higher knowledge are embedded continuously within your own higher level intelligent needs and meanings just because this is the case with all intelligent life But is this important knowledge about life actually available to you and everyone else Yes or no since there are many instances to consider Yet when you are capable to find the necessary knowledge about life meaning society and the world you are truly capable to live your life at the intelligent human level While if you cannot find it you keep on searching since your own higher level needs and meanings never leave you alone until you learn everything necessary in life and in the world And so you do otherwise you end up living your life on lower developmental levels addicted in servitude or only intuitively through animal instincts And it certainly matters just because you are an intelligent living human being by nature now forced to live life below your level unfulfilled and even punished intrinsically for your continuous failure But where exactly can you find this important knowledge Who can shine a living light on the accurate truth Do you still wait for science to do so when science had already offered you everything that it knows since high school Throughout this book we model life in all significant details as we study everything alive and intelligent from the smallest cellular components to the entire human body mind and spirit and to all forms of life because everything is alive and meaningful in the world If you want to learn more about life in all forms and realities this book is for you
