 White Light The Poetry of Alberto Blanco examines the interplay of complementary images and concepts in the award
 winning Mexican writer's cycle of poems from 1979 to 2018 Blanco's poetic trilogy A la luz de siempre is characterized by its
 broad range of form and subject and by the poet's own eclectic background as a chemist maker of collages and musician
 Blanco speaks the language of the visual arts science mathematics music and philosophy and creates work with deep
 interdisciplinary roots This book explores how polarities such as space and place reading and writing sound and silence
 visual and verbal representation and faith and doubt are woven through A la luz de siempre These complements reveal how

Blanco's poetry like the phenomenon of white light embraces paradox and transforms into something more than the sum of its disparate and polychromatic parts
