## **Termination Order A Novel:**

*Contemporary Literature and the End of the Novel* P. Vermeulen, 2015-01-06 This book explores the paradoxical productivity of the idea of the end of the novel in contemporary fiction. It shows how this idea allows some of our most significant twenty-first century writers to re-imagine the ethics and politics of literature and to figure intractable forms of life and affect.

*The End of Literature, Hegel, and the Contemporary Novel* Francesco Campana, 2019-11-28 This book explores the concept of the end of literature through the lens of Hegel's philosophy of art. In his version of Hegel's end of art thesis, Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective. Contemporary art has become a question of philosophical reflection on itself and on the world, thus producing an epochal change in art history. The core idea of this book is that this thesis applies quite well to all forms of art except one: namely, literature. Literature resists its end. Unlike other arts which have experienced significant fractures in the contemporary world, Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end. Analysing the distinct character of literature, this book proposes a new and original interpretation of the end of art thesis, showing how it can be used as a key conceptual framework to understand the contemporary novel.

**After the End of History** Samuel Cohen, 2009-10-01 In this bold book, Samuel Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York. With refreshing clarity, he examines six 1990s novels and two post-9/11 novels that explore the impact of the end of the Cold War: Pynchon's *Mason Dixon*, Roth's *American Pastoral*, Morrison's *Paradise*, O'Brien's *In the Lake of the Woods*, Didion's *The Last Thing He Wanted*, Eugenides's *Middlesex*, Lethem's *Fortress of Solitude*, and DeLillo's *Underworld*. Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection. Exploring the ways ideas about paradise and pastoral, difference and exclusion, innocence and righteousness, triumph and trauma deform the stories Americans tell themselves about their nation's past, *After the End of History* challenges us to reconsider these works in a new light, offering fresh insightful readings of what are destined to be classic works of literature. At the same time, Cohen enters into the theoretical discussion about postmodern historical understanding. Throwing his hat in the ring with force and style, he confronts not only Francis Fukuyama's triumphalist response to the fall of the Soviet Union but also the other literary and political end-of-history claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels. In a straightforward affecting style, *After the End of History* offers us a new vision for the capabilities and confines of contemporary fiction.

*The End of Books--or Books Without End?* J. Yellowlees Douglas, 2001 An exploration of the possibilities of hypertext fiction as art form and entertainment.
