**Emperor Qin's Terra Cotta Army** Michael Capek,2008-01-01 A dead emperor guarded by his army for 2 000 years One day in 1974 a group of farmers in rural China found a life size clay statue of a man's head buried deep in a field When government archaeologists inspected the area they discovered that beneath the ground were more than eight thousand life size clay soldiers each one with a unique face In nearby chambers they unearthed clay horses carefully preserved swords bronze statues and other astonishing things Where did these treasures come from And why were they buried Slowly the story revealed itself It centered around Qin Shi Huangdi the first emperor of China who died in 210 B C For forty years leading up to his death thousands of artists from across China had sculpted an enormous city where he would be buried guarded and protected by thousands of clay soldiers This city remained hidden for over two thousand years This important archaeological find offers amazing insight into the civilization of ancient China *The Terra Cotta Army of Emperor Qin* Caroline Evensen Lazo,1993 In 1974 while digging a well in a field near the Chinese city of Xian two farmers unearthed a life size figure of an ancient warrior Further digging revealed over 7 500 terra cotta warriors each one individually crafted and posed Some stood at attention holding spears others knelt with bows and arrows and still others were on horseback Remarkably preserved and intact this silent army of clay warriors has been on guard for over 2 000 years What they were guarding was a tomb the tomb of China's first emperor Emperor Qin The story of who Qin was and how and why he had this ghostly army created to guard his burial place has slowly unfolded as archaeologists and historians have excavated and studied the terra cotta figures Now come behind the scenes and discover the secrets that have long been guarded by the terra cotta army of Emperor Qin

*Secrets of the Terracotta Army* Michael Capek,2014-07-01 Describes the archeological wonders of the Terracotta Army including discovery artifacts ancient peoples and preservation *The Terracotta Army* Charles River Editors,2017-01-11 Includes pictures Includes ancient accounts of the emperor's reign and description of his tomb Describes how the Terracotta Army was designed and created Includes a bibliography for further reading The terracotta army was a one off creation original in both concept and execution unmentioned in any source no sooner buried than destroyed and forgotten Why so realistic Why this many Why full size Why clay The initial inspiration was the need to duplicate a new force of which the main element was infantry conscripted from the emperor's newly acquired masses of peasants and protected not with custom made armor but with scales of leather and simple standardized weapons It was the combination of archers infantry and charioteers this particular balance between officers and men that had enabled the First Emperor to unify the nation John Man *The Terracotta Army China's First Emperor and the Birth of a Nation* China has always fascinated outsiders much in the same way that distant light fascinates someone looking down a dark road It is both familiar and mysterious ancient and new and fully understanding it seems to always remain just out of reach From the Great Wall to the ancient teachings of

Confucius China's natural and man made wonders have been topics of interest among Westerners since the Middle Ages and the pursuit of trade routes both by land and sea amazing Marco Polo and 19th century British expeditions in similar ways despite the passage of several centuries between them For these reasons it comes as little surprise that people across the world were excited when it was revealed in 1974 that archaeologists had uncovered a new and amazing find an underground army consisting of thousands of clay soldiers still standing at their posts despite being over 2 000 years old In addition to the remarkable feats of craftsmanship and the almost unimaginable size and scale of the Terracotta Army the sculpted statues seemed to bear testimony of something that modern people could not quite wrap their minds around representing a time when China was born almost 200 years before Christ The hope for many was that this remarkable army could reveal the secrets of China's first emperor Qin Shi Huang a man who united seven warring tribes into one of the most powerful nations on earth Even as research continues 40 years after the initial find some of the facts about the Terracotta Army are staggering It's estimated that the army consists of 8 000 soldiers 130 chariots and hundreds of horses and cavalry all of which were sculpted on a mass scale by various factories but were subsequently molded to feature their own unique appearances separate of one another As if that wasn't enough there are also terracotta sculptures of acrobats servants and musicians and the sculptures were painted though most of the paint has faded away over time This impressive horde of funerary art was buried with Qin Shi Huang to serve him in the afterlife much the same way Egyptian pyramids were constructed for pharaohs While the sculptures comprising the Terracotta Army are impressive as a work of art they have indeed proven to be an invaluable historical source as well Thanks to collections of weapons buried with the sculptures as well as the shapes and sizes of the various military equipment historians can get a sense of what Qin Shi Huang had at his disposal when he fought battles and the Terracotta Army itself is even organized based on military rank allowing historians a chance to understand ancient Chinese military formations The Terracotta Army The History of Ancient China's Famous Terracotta Warriors and Horses chronicles the history of the Chinese emperor who commissioned them and a description of the famous funerary art Along with pictures of important people places and events you will learn about the Terracotta Army like never before **The Qin Terracotta Army** Wenli Zhang,1996 A fascinating study of this amazing archaeological discovery *Wonders from the Earth* Tianchou Fu,1989 **The Tomb of China's First Emperor** Enzo George,2017-07-15 The tomb of China's First Emperor Qin Shi Huangdi is guarded by an army of more than 6 000 life size terracotta warriors Doubtless many untold treasures and secrets are sealed in the unopened burial chamber and perhaps a deadly river of mercury too Young archaeologists will delight in learning about this famous ruler and his quest for eternal life They'll find out how the latest technology is being used to reveal more about the tomb's contents while preserving its artifacts Beautifully vivid photographs complement the intriguing text while a timeline aids in summarizing key historical details *The Subterranean Army of Emperor Qin Shi Huang* Guo Youmin,2005 When society has already entered an age of high tech and computers an army of

powerful imperial soldiers clad in armour and wielding threatening weapons suddenly looms out of the fog of time As mysterious as extraterrestrial beings the terracotta soldiers are at the same time life like They emerge out of the earth under which they have remained buried and unknown for more than 2 200 years Was it because they could no longer bear the darkness and loneliness underground or because they wanted to reveal their ancient long forgotten glory Or was it because Emperor Qin Shi Huang had always intended to demonstrate to later generations his absolute imperial power For whatever reason the reappearance of his legions has given the impression that this is a story we may never fully comprehend *The Terracotta Warriors* Jane Portal,2007 The Terracotta Army of Qin Shihuangdi the First Emperor of China is one of the most spectacular and best known finds in world archaeology It was discovered by surprise in 1974 by peasants digging a well an 8 000 man garrison in battle ready formation spread across four pits Here were life size warriors made over two thousand years ago from fired clay originally brightly painted carrying real weapons cavalry archers and infantry lowly foot soldiers and high ranking officers horses and war chariots But who was this powerful Emperor of the Qin Dynasty who needed an army to guard him in the afterlife How were the figures made How could they have been manufactured on such a vast scale The astonishing facts behind the figures are revealed in this little books fascinating introduction Individual pieces are then examined in detail to illustrate the amazing nature of the Terracotta Army Not only are there figures of different ranks and units but each head is unique every racial group in China seems to be represented facial expressions and hairstyles vary ages and characters are different Atmospheric photography and extended captions bring the Army to life and make this book a perfect introduction to what has often been described as the eighth Wonder of the World Terracotta Warriors Guolong Lai,2011 This catalog sets the Terracotta warriors in a wider context by examining art of the Qin state in the period that led to the unification of China The Terracotta Army Gary Geddes,1984 In 1985 Gary Geddes won the Commonwealth Poetry Prize Americas Region for The Terracotta Army a brilliant sequence of his Chinese sonnets The nine couplet poems were inspired by his 1981 visit to the archaeological site in China where more than 8 000 individually sculpted life sized soldiers and horses were interred in the third century to accompany Emperor Ch in Shi Huang Di into the afterlife In this ideologically charged volume Geddes gives voice to a few soldiers who engage in myriad debates about the abuse of power the yin yang dance of narrative and silence and the sanctity of the idiosyncratic self in the face of conformity This new edition of The Terracotta Army published to coincide with the Canadian tour of The Warrior Emperor and China s Terracotta Army opening at the ROM in late June 2010 pairs Geddes poems with photographs of the terracotta soldiers **Die Terrakottaarmee des ersten chinesischen Kaisers Qin Shihuang** Catharina Blänsdorf,Erwin Emmerling,2001 **Ming's Adventure with the Terracotta Army** Li Jian,2013-10-22 This beautifully illustrated multicultural children s book tells a story about China s most famous archeological site the terracotta soldiers of Xi an When a special exhibition of terracotta warriors comes to town Ming and his mother go to see them at the museum To remember this exciting event Ming
