## **The Generals Will:**

**A General History and Collection of Voyages and Travels (Vol. 1-18)** Robert Kerr, 2020-07-01 Prepare yourself for discoveries and new adventures with this incredible book about the true origin of wanderlust. This edition forms a complete history of the earliest start and progress of navigation, discovery and commerce by sea and land from the earliest ages to the early 19th century. First part of the work covers voyages and travels of discovery in the middle ages from the era of Alfred King of England in the ninth century to that of Don Henry of Portugal at the commencement of the fourteenth century. Second part deals with general voyages and travels chiefly of discovery from the era of Don Henry in 1412 to that of George III in 1760. The rest of the work has some particular voyages and travels arranged in systematic order. Geographical and Chronological and studies voyages during the era of George III conducted upon scientific principles by which the Geography of the globe has been nearly perfected. *Political Thinkers* David Boucher, Paul Kelly, 2017 The most comprehensive introduction to the greatest political thinkers written by a team of international experts. *Civic Virtues* Richard Dagger, 1997 Dagger argues for a republican liberalism that while celebrating the liberal heritage of autonomy and rights solidly places these within social relations and obligations which while ubiquitous are often obscured and forgotten.

**Engaging with Rousseau** Avi Lifschitz, 2016-07-28 Jean Jacques Rousseau has been cast as a champion of Enlightenment and a beacon of Romanticism, a father figure of radical revolutionaries and totalitarian dictators alike, an inventor of the modern notion of the self and an advocate of stern ancient republicanism. *Engaging with Rousseau* treats his writings as an enduring topic of debate, examining the diverse responses they have attracted from the Enlightenment to the present. Such notions as the general will were, for example, refracted through very different prisms during the struggle for independence in Latin America and in social conflicts in Eastern Europe or modified by thinkers from Kant to contemporary political theorists. Beyond Rousseau's ideas, his public image too travelled around the world. This book examines engagement with Rousseau's works as well as with his self-fashioning, especially in turbulent times, his defiant public identity and his call for regeneration, were admired or despised by intellectuals and political agents. *Official Catalogue of the British Section Great Britain. Commission to the Paris Exposition, 1889*, 1889. *Senate documents*, 1882. *Political Reason and Interest* Herman H.H. van Erp, 2018-02-05 This title was first published in 2000. Politics cannot be conceived of as just a subsystem of society or as a network of particular interests. The concept of interests and their role within the normative political debate is given a new interpretation by this book which examines how political interest, market mechanisms and rational choice theories exist in the light of democratic freedom and social justice. The book builds on different concepts of procedural justice from Schumpeter, Buchanan and Habermas's conceptions of democracy and the role of political compromise and coalition in the idea of consensus as a condition for political legitimation. **Annual Report of the Inspector-General to the ...
