The Father of English painting William Hogarth aspired to an art that would engage and delight ordinary citizens rather than educated connoisseurs and critics whom he despised. He achieved this ambition by creating a new type of painting: a comic strip-like series of pictures called modern moral subjects. Famous examples such as *A Harlot's Progress*, *A Rake's Progress*, and *Marriage à la Mode* were reproduced en masse as popular engravings and were accessible to all. His work also provided a visual influence to the satirical works of England's great men of letters.
