The Gold Leaf Lady and Other Parapsychological Investigations Stephen E. Braude,2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization The Gold Leaf Lady and Other Parapsychological Investigations is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions The Gold Leaf Lady and Other Parapsychological Investigations will intrigue both adherents and detractors of its controversial subject matter alike      **Navy Civil Engineer** ,1963      *A Coordination Approach for Self-Managed Middleware* ,      The Perfect Medium Clément Chéroux,Andreas Fischer,Pierre Apraxine,Denis Canguilhem,Sophie Schmit,2005-01-01 In the early days of photography many believed and hoped that the camera would prove more efficient than the human eye in capturing the unseen Spiritualists and animists of the nineteenth century seized on the new technology as a method of substantiating the existence of supernatural beings and happenings This fascinating book assembles more than 250 photographic images from the Victorian era to the 1960s each purporting to document an occult phenomenon levitations apparitions transfigurations ectoplasms spectres ghosts and auras Drawn from the archives of European and American occult societies and private and public collections the photographs in many cases have never before been published The Perfect Medium studies these rare and remarkable photographs through cultural historical and artistic lenses More than mere curiosities the images on film are important records of the cultural forces and technical methods that brought about their production They document in unexpected ways a period when developing photographic technology merged with a popular obsession with the occult to create a new genre of haunting experimental photographs      **Mining World** ,1960      Navy Management Review United States.
