Hans Wolfgang Müller, Eberhard Thiem

The Gold Of The Pharaohs:

The Gold of the Pharaohs Henri Stierlin, 2003 A unique and stunning overview of the art of the Egyptian goldsmiths richly illustrated with reproductions of the original works themselves from the massive volumes of gold and silver coffins to the delicacy of enameled pectorals and tiny talismans Through its texts and color illustrations the book provides the reader with an exceptional insight into the genius of the ancient Egyptians

Gold of the Pharaohs Hans Wolfgang Müller, Eberhard Thiem, 1999 Red Man s America meets the great need for a comprehensive study of Indian societies from the first Stone Age hunters to the American citizens of today Beginning with the first migrations of primitive man from Siberia in the Old World to Alaska in the New probably during the latter part of the Pleistocene glaciations and his subsequent migration southward and eastward the author takes up in turn the tribes and cultures of the various regions of North America The material Professor Underhill has gathered from the fields of archaeology ethnology and history together with that drawn from her own experience in the United States Indian Service produces a fascinating narrative Red Man s America is an important contribution to our heritage of Indian life and lore A work for which both sociologist and historian will be forever grateful The author has combined a long period of study with actual field work in the service of the Indian to produce a work that gives a brief but well written and accurate sketch of the origins backgrounds and customs of the various North American tribes There is no other modern single volume that contains as much information on the subject E R Vollmar The Historical Bulletin Liveliness in style and illustration together with perspicacity in content makes this book a useful introduction to the civilization of the original inhabitants of the land Pacific Historical Review
