People who have I.D. as well as other psychological problems feel drawn to this author. The author makes no claim to holding any applicable credential as a professional in some of the fields of interest presented by this book. He claims no medical knowledge more than common knowledge nor professional psychology knowledge beyond common knowledge. He has done his research as a writer and defers to professionals. Nothing is intended to suggest that this book is about the practice of medicine by the author nor any credentialed psychological service by the author.
