*Explorations in Social Theory* George Ritzer, 2001-04-10. George Ritzer is one of the leading social and cultural commentators of the present day. In this essential new book, he considers some of the main tendencies in contemporary social theory. Included here are Ritzer's latest reflections on the uses and misuses of metatheory. According to Ritzer, sociology is a multiparadigm science. The differences and intensities of rivalries between paradigms are often very confusing for students and even for professional sociologists. This book seeks to find a way out of the confusion by sketching out the lineaments of a new integrated sociological paradigm and demonstrates how this paradigm can be applied. It shows the various ways in which Ritzer has developed rationalization theory to shed light on professional integration, the shape of consumer culture, hyper-rationality, and the state of sociology.

*Handbook of Sociological Theory* Jonathan H. Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The
