France Since 1945:

France Since 1945 Robert Gildea,2023 This book provides an introduction to the momentous events of the last 50 years in French political history the legacy of the German Occupation the effects of the Algerian war and the rise of Islam and the loss of domination in Europe France Since 1945 ,2010 France and Its Empire Since 1870 Alice L. Conklin,Sarah Fishman,Robert Zaretsky,2015 Providing an up to date synthesis of the history of an extraordinary nation one that has been shrouded in myths many of its own making France and Its Empire Since 1870 seeks both to understand these myths and to uncover the complicated and often contradictory realities that underpin them It situates modern French history in transnational and global contexts and also integrates the themes of imperialism and immigration into the traditional narrative Authors Alice L Conklin Sarah Fishman and Robert Zaretsky begin with the premise that while France and the U S are sister republics they also exhibit profound differences that are as compelling as their apparent similarities The authors frame the book around the contested emergence of the French Republic a form of government that finally appears to have a permanent status in France but whose birth pangs were much more protracted than those of the American Republic Presenting a lively and coherent narrative of the major developments in France s tumultuous history since 1870 the authors organize the chapters around the country s many turning points and confrontations They also offer detailed analyses of politics society and culture considering the diverse viewpoints of men and women from every background including the working class and the bourgeoisie immigrants Catholics Jews and Muslims Bretons and Algerians rebellious youth and gays and lesbians *The Government and Politics of France* Andrew Knapp,Vincent Wright,2001 The latest revision of what is the best available guide to modern French politics

Steven Vincent, Alison Klairmont-Lingo, 2000-10-01 The Human Tradition in Modern France gives a human perspective of the history of France from 1789 to the present revealed in essays that highlight individuals and intriguing events that too often have been lost under labels and statistics Students will gain an understanding of the humor and passion in French history from these new original essays by well established scholars This collection also relates the individuals events and controversies to current historiographical debates The Human Tradition in Modern France is an excellent supplementary text for courses on French history and is also useful for courses in world history and Western Civilization Sociology in France after 1945 P. Masson, C. Schrecker, 2016-04-29 Tracing the evolution of French sociology from the early twentieth century to the present day this insightful book brings to the fore the renowned origins but relatively slow development of the discipline in France Divided into four chronological sections it focuses on the social changes and institutional transformations that have impacted on the history of sociology in France as it relates to both higher education and research In doing so it draws attention to three major features of French sociology the imbalance between theory and method caused by its philosophical roots the difficulty of locating it in relation to other disciplines and the close links between sociology and political thought and action French Vocal Literature Georgine Resick, 2017-12-22 French Vocal Literature Repertoire in Context introduces singers to the history and performance concerns of a vast body of French songs from the twelfth century to the present focusing on works for solo voice or small vocal ensembles with piano or organ accompaniment suitable for recitals concerts and church performances Georgine Resick presents vocal repertoire within the context of trends and movements of other artistic disciplines such as poetry literature dance painting and decorative arts as well as political and social currents pertinent to musical evolution Developments in French style and genre and comparisons among individual composers and national styles are traced through a network of musical influence French Vocal Literature is ideally suited for voice teachers and coaches as well as student and professional performers The companion website frenchvocalliterature.com provides publication information a discography links to online recordings and scores a chronology of events pertinent to music a genealogy of royal dynasties and a list of governmental regimes Contemporary France David L. Nérè,1975 French Foreign Policy since 1945 Frédéric Bozo,2016-08-01 When Charles de Gaulle declared that it is because we are no longer a great power that we need a grand policy he neatly summarized France's predicament on the world scene In this compact and engaging history author Frédéric Bozo deftly recounts France's efforts to reconcile its proud history and global ambitions with a realistic appraisal of its capabilities from the aftermath of World War II to the present He provides insightful analysis of the nation's triumphs and setbacks through the years of decolonization Cold War maneuvering and European unification as well as the more contemporary challenges posed by an increasingly multipolar and interconnected world A Century of French Painting 1400-1500 Grete Ring,1940 **France in Transition** Business International S.A.,1979 France Stanley Hoffmann,1963 **The Theory of Money in France Since 1945** Émile James,1957 **France Since the Second World War** Tyler Edward Stovall,2002 Asking how France has managed to preserve and shape her sense of national identity in the intervening years since the war Professor Stovall explores the French postwar recovery and the 30 years of prosperity that followed **Historical Abstracts** Eric H. Boehm,2000 **Income Inequality in France 1901-98** Thomas Piketty,2001 **The Construction of Minority Identities in France and Britain** Gino G. Raymond,Tariq Modood,2007-11-09 Britain and France have divergent attitudes to the issue of minority identities Whilst the British emphasise multiculturalism allowing that it is possible to combine race or faith with a British identity the French view such a combination of religion and nationality as unacceptable However recent events have challenged these traditional approaches to minorities The London bombings of July 2005 and the fact that the perpetrators were British threw into question the assumption that the elevation of difference could lead to community cohesion whilst riots in Birmingham in October 2005 between black and Asian communities further highlighted tensions Similarly French certainties about their proactive attitude to the integration of minorities into a national community unified by common value were profoundly shaken by rioting in urban areas
