priorities have been focused both on reducing fuel consumption and improving air quality attention has increased on

reducing emissions from many types of vehicles including light duty medium duty and heavy duty diesel powered vehicles

Meeting the recently promulgated and proposed emission standards and simultaneously increasing fuel economy will pose

especially difficult challenges for diesel powered vehicles and will require the development of new emission reduction

Organization's Food Price Index stood at 164 the same level as in August 2007 and 25% lower than the Index's high of 219 in

June 2008 However this does not mean that policy makers around the world can start to breathe a sigh of relief For one thing

even at their somewhat diminished levels current prices remain acutely problematic for low income import dependent

countries and for poor people all over the world The World Bank estimates that higher food prices have increased the
