The Letters Of The Third Viscount Palmerston To Laurence And Elizabeth Sullivan 1804-1863:

The Letters of the Third Viscount Palmerston to Laurence and Elizabeth Sullivan, 1804-1863 Henry John Temple Palmerston (Viscount), Laurence Sullivan, Elizabeth Sullivan, 1979 **Conservatism and British Foreign Policy, 1820-1920** Geoffrey Hicks, 2016-05-23 The Derbys of Knowsley Hall have been neglected by historians to an astonishing degree In domestic political terms the legacies of Disraeli and his Conservative successors have long obscured their Lancastrian aristocratic predecessors As far as foreign policy is concerned twentieth century politics and scholarship have often suggested crude polarities for example the idea of appeasement versus Churchillian belligerence has its nineteenth century equivalent in Aberdeen's apparent rivalry with Palmerston The subtleties of other views such as those represented by the Derbys have either been overlooked or misunderstood In addition the fact that much crucial archival and editorial work has only been carried out in the last two decades has had a significant impact Examining a range of topics in domestic and foreign policy this collection brings a fresh approach to the political history of the nineteenth and early twentieth centuries through a series of innovative essays It will appeal to those with an interest in the decline of the aristocracy Victorian high politics and the politics of the regions as well as the Conservative tradition in foreign policy *The Mid-Victorian Generation, 1846-1886* K. Theodore Hoppen, 1998 This book covers the period from the repeal of the Corn Laws to the dramatic failure of Gladstone's first Home Rule Bill Intermeshed with a detailed social and political analysis of the period Hoppen examines the development of Victorian culture **Anglo-French Relations since the Late Eighteenth Century** Glyn Stone, Thomas G. Otte, 2013-09-13 This work intended to commemorate the centenary of the Entente Cordiale in 2004 examines aspects of Anglo French relations since the late eighteenth century when both Britain and France were pre eminent great powers at war with one another through to the post Second World War period when both had become rival second class powers in the face of American and Soviet dominance The chapters in this book examine and illuminate the nature of the Anglo French relationship at certain periods during the last two hundred years both in peacetime and in war and include political economic diplomatic military and strategic considerations and influences While the impact of Anglo French relations is centred essentially on the European context other areas are also considered including the Middle East Africa and the North Atlantic The elements of conflict rivalry and cooperation in Anglo French relations are also highlighted whether in peace or war This book was previously published as a special issue of *Diplomacy and Statecraft* **Empire and the Peasant Proprietor** Preet S. Aulakh, 2025-09-18 As the British Empire consolidated its geographical possession of distant lands by the 19th century the agrarian nature of its colonies necessitated careful considerations about land tenure relationships After intense debates around property rights and political economy several land laws were enacted across the Empire between 1868 and 1875 which recognised the proprietary rights of peasant cultivators *Empire and the Peasant Proprietor* examines this transformative shift in the imperial approaches to land tenure Through a comparative analysis of

historical land tenure arrangements in three diverse colonial sites Punjab Ireland and Prince Edward Island the book identifies two crucial mechanisms which facilitated the institutionalisation of peasant proprietorship One there was a fortuitous ideological alignment between important governing agents in the three colonies Two the debate about the impact of land reform in the colonies on the sanctity of English principles was redirected allowing for inter colony analogies and precedents to support the proprietary rights of peasant cultivators Empire and the Peasant Proprietor demonstrates the importance of these reciprocal influences within the imperial system and provides insight into contemporary challenges of secure land rights for a large proportion of the global population that continues to be dependent on agriculture for sustenance This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations

Defining John Bull Tamara L. Hunt, 2017-07-05 Defining John Bull demonstrates that caricature played a vital role in the redefinition of what it meant to be British The public's increasing interest in political controversies meant that satirists turned their attention to individuals and the issues involved This long reign was marked by political crises both foreign and domestic and caricaturists responded with an outpouring of work that led the era to be called the golden age of caricature These multitudinous prints produced in response to public demands and sensitive to public attitudes indicate the redefinition of existing ideals

Palmerston, the Early Years, 1784-1841 Kenneth Bourne, 1982 Henry John Temple 3rd Viscount Palmerston KG GCB PC 20 October 1784 18 October 1865 known popularly as Lord Palmerston was a British statesman who served twice as Prime Minister in the mid 19th century Popularly nicknamed Pam or The Mongoose he was in government office almost continuously from 1807 until his death in 1865 beginning his parliamentary career as a Tory and concluding it as a Liberal Wikipedia

Sir Robert Peel Richard A. Gaunt, 2010-07-02 Sir Robert Peel paragon or pariah Peel was the greatest statesman and political leader of mid Victorian Britain a titan of Conservative politics whose legacy has inspired generations in his party and in British political life In a career spanning forty years he held the greatest offices of state including Chief Secretary to Ireland Home Secretary Chancellor of the Exchequer and was twice Prime Minister He was the first acknowledged leader of the Conservative Party and the Founder of Modern Conservatism Yet Peel's seemingly peerless reputation has never been secure The Repeal of the Corn Laws split his party his Peelite supporters joined the Liberals and the Conservatives remained in opposition for thirty years Richard Gaunt drawing on a huge archive of state papers contemporary writings including Peel's own Memoirs and the latest historiography paints a convincing picture of Peel as an exponent of effective government in the modern industrial state and a calculating practitioner supremely self confident who dominated both his Party and the House of Commons Gaunt's revisionist life of Peel will be essential reading and the standard work for students and general readers interested in Conservative and mid Victorian political history and historical biography

The Crimean War Andrew Lambert, 2016-03-16 In contrast to every other book about the conflict Andrew

Lambert's ground breaking study *The Crimean War British Grand Strategy against Russia 1853-1856* is neither an operational history of the armies in the Crimea nor a study of the diplomacy of the conflict. The core concern is with grand strategy, the development and implementation of national policy and strategy. The key concepts are strategic, derived from the works of Carl von Clausewitz and Sir Julian Corbett, and the main focus is on naval not military operations. This original approach rejected the Continentalist orthodoxy that dominated contemporary writing about the history of war, reflecting an era when British security policy was dominated by Inner German Frontier, the British Army of the Rhine and Air Force Germany. Originally published in 1990, the book appeared just as the Cold War ended, the strategic landscape for Britain began shifting away from the continent and new commitments were emerging that heralded a return to maritime strategy as adumbrated in the defence policy papers of the 1990s. With a new introduction that contextualises the 1990 text and situates it in the developing historiography of the Crimean War, the new edition makes this essential book available to a new generation of scholars. *A London Bibliography of the Social Sciences*, 1981 Vols 1-4 include material to June 1 1929

Bulletin of Dr. Williams's Library Dr. Williams's Library, 1981 **Bibliographies of Studies in Victorian Literature for the Ten Years 1975-1984** Richard Clark Tobias, 1991 This volume comprises publications on Victorian literature written in the period 1975-1984. The lists derive from the summer issues of the journal *Victorian Studies* which are devoted to bibliography of the period. Also included is an index of names and subjects. *Books in Series*, 1985 Vols for 1980 issued in three parts: Series, Authors and Titles. **The Tenant League of Prince Edward Island, 1864-1867** Ian Ross Robertson, 1996 A study of the Tenant League of Prince Edward Island, an agrarian movement committed to ending the system of leasehold land tenure imposed by Great Britain in 1767. The movement flourished in the 1860s but has often been eclipsed by the Confederation and Robertson's history. U of Toronto reinstates the League's historical significance, examining the origins, strategies and impact of the militant grass roots organization. Concurrently, the history of the Tenant League is intertwined with that of British North America and illuminates the social, political, legal and military machinations of the era. Partridge, 1994-05-30 One of the great figures of 19th century Britain, Lord Palmerston had an extensive career both as a domestic politician and as an international statesman. This volume is the first comprehensive bibliography of his life, both public and private. It includes published and unpublished material by and about Palmerston from his own time to the present. The book begins with a brief biographical sketch and chronology of Palmerston's life. Over half of the work covers primary source materials and unpublished materials pertaining to Palmerston's career. The following sections deal with his speeches and published writings, general biography and the secondary literature on his early life and political career, his years as foreign secretary, home secretary and prime minister, and his private life. The work also includes sections on iconography, death and funeral notices, theses and dissertations, and

Royal Commission on Historical Manuscripts, 1982 **Military Planning for the Defense of the United Kingdom, 1814-1870** Michael Partridge, 1989-10-25 Based upon exhaustive research in numerous archival sources including the personal papers of the major British military and political leaders of the day this is a comprehensive study of British military planning during a period in which long successful defense and military strategies had to be reappraised in light of new technological advances As Michael Partridge notes Britain emerged victorious in 1814 after twenty two years of war with revolutionary and Napoleonic France however various technical and international developments particularly the invention of the steam engine gravely undermined Britain's security between 1814 and 1870 Because steam power enabled ships to maneuver independently of wind and tide Britain was now vulnerable to attack from all sides forcing her to devise new defensive strategies to repel invasion Partridge thoroughly examines Britain's response to the advent of steam power as well as the special military defense problems faced by the country as a result of its geographical position and contemporary political realities Following a brief introduction Partridge offers an overview of Britain's strategic position in the years following the war with France Subsequent chapters examine each aspect of the country's military planning in detail beginning with an exploration of the decline of the Royal Navy at one time the unchallenged mistress of the seas and far larger than any rival's naval force Partridge then addresses the internal machinery of defense planning the political constraints placed upon defense planners the effects of popular aversion to a standing army and the new awareness of Britain's strategic vulnerability Individual chapters are devoted to the three major prongs of Britain's land defenses the regular army fortifications and the militia yeomanry and volunteers A bibliography is included for those who wish to pursue further research in this area Indispensable for students of military history this study offers important new insights into Britain's ability to adapt to the new military and technological realities of the early Nineteenth Century *The Foreign Office, 1782-1982* London School of Economics and Political Science.
