Pasles, 2008     **The Reception of Bodin**, 2013-09-12 In *The Reception of Bodin* an international and interdisciplinary team of seventeen scholars considers one of the most remarkable figures in European intellectual history the sixteenth century jurist and philosopher Jean Bodin as a prismatic agent in the transmission of ideas The subject is approached in the light of reception theory coupled with critical evaluation of key texts as well as features of Bodin's own career Bodin is treated as recipient of knowledge gleaned from multifarious sources and his readers as receivers responding diversely to his work in various contexts and from various standpoints The volume provides searching insights both into Bodin's mental world and into processes that served to cross fertilise European intellectual life from the Renaissance to the Enlightenment Contributors include Ann Blair Harald E Braun Glenn Burgess Peter Burke Vittor Ivo Comparato Marie Dominique Couzinet Luc Foisneau Robert von Friedeburg Mark Greengrass Virginia Krause Johannes Machielsen Christian Martin Sara Miglietti Diego Quaglioni Jonathan Sch z Michaela Valente     **Centenary of Index Medicus, 1879-1979** National Library of Medicine (U.S.), 1980     *American Enlightenments* Caroline Winterer, 2016-10-25 A provocative reassessment of the concept of an American golden age of European born reason and intellectual curiosity in the years following the Revolutionary War The accepted myth of the American Enlightenment suggests that the rejection of monarchy and establishment of a new republic in the United States in the eighteenth century was the realization of utopian philosophies born in the intellectual salons of Europe and radiating outward to the New World In this revelatory work Stanford historian Caroline Winterer argues that a national mythology of a unitary patriotic era of enlightenment in America was created during the Cold War to act as a shield against the threat of totalitarianism and that Americans followed many paths toward political religious scientific and artistic enlightenment in the 1700s that were influenced by European models in more complex ways than commonly thought Winterer's book strips away our modern inventions of the American national past exploring which of our ideas and ideals are truly rooted in the eighteenth century and which are inventions and mystifications of more recent times     **The Student's Handbook of British and American Literature** Oliver Louis Jenkins, 1876     **The British Library General Catalogue of Printed Books to 1975** British Library, 1983     A Descriptive Checklist of Book Catalogues Separately Printed in America, 1693-1800 Robert B.
