The Ledger A Novel:

The Ledger Joan Hurling,1981 ***The Stone-cutter of Lisbon*** William Henry Peck,1889 ***Balancing the Books***

Erik Dussere,2013-05-24 **Balancing the Books** represents a sophisticated examination of the ongoing engagement of American literature with the economies of slavery through the works of William Faulkner and Toni Morrison Both Faulkner and Morrison write about the relationship between race identity and history and about how the legacies of slavery linger in the lives and actions of their characters although the narrative strategies through which they render these themes ultimately diverge Dussere brings considerations of debt and repayment exchange and accounting and capital and the market concepts inseparable from any consideration of race in the construction of the American nation into dialogue with the work of Faulkner and Morrison to produce an outstanding work of literary and cultural criticism

The Detective as Historian

Ray Browne, Lawrence Kreiser,2009-03-26 Deeper understanding of history is enhanced by encasing it in art and interest Crime fiction is one of the widest and most rapidly growing forms of literature Historical crime fiction serves effectively the double purpose of entertaining while it teaches The truth of the narrative account the editors of this volume believe is dependent on the understanding of human nature reflected in the author who writes the narrative Historical crime fiction the editors of this volume write has an obligation and a golden opportunity It must bring the past up to the present through the device of timeless crime and it must take the reader into the world about which is being written so that the characters are alive and the events interesting and challenging Professional writers of fiction need to be more effective than mere authors of dates and assumed motivations Therefore they can fill in human motivations and drives where no records exist and can aid the professional historians in what historian David Thelen calls the challenge of history which is to recover the past and interpret it for the present The essays in this volume accept the challenge and make major accomplishments for meeting it

Murder 101 Edward J. Rielly,2009-01-09 This collection of essays examines how college professors teach the genre of detective fiction and provides insight into how the reader may apply such strategies to his or her own courses Multi disciplinary in scope the essays cover teaching in the areas of literature law history sociology anthropology architecture gender studies cultural studies and literary theory Also included are sample syllabi writing assignments questions for further discussion reading lists and further aids for course instruction
