Colony and Empire William G. Robbins, 1994 Popular writers and historians alike have perpetuated the powerful myth of the rugged individualist single handedly transforming the American West In reality William Robbins counters it was the Guggenheims and Goulds the Harrimans and Hearsts and the Morgans and Mellons who masterminded what the West was to become Remove the romance he shows and a darker West emerges a colonial like region where industrial statesmen aided by eastern U S and European capital manipulated investments in pursuit of private gain while controlling wage earning cowboys and miners Robbins argues that understanding the impact of capitalism on the West from the fur trade era to the present is essential to understanding power influence and change in the region Showing how global capitalism had a more profound impact on the modern West than individual initiative he explores violence and racism along the Texas Mexican border colonial style company towns in Montana and the Northwest contrasting traditions astride the U S Canadian boundary pace setting agribusiness and exploitation of labor in California the growing power of metropolitan centers and dependence of rural areas and the emergence of a sizable federal influence To grasp the essence of the West s dramatic transformation Robbins contends you must look to the mainstays of material relations in the region the perpetually changing character of political and economic culture the inherent instability of resources and the larger constellations of capitalist decision making Consequently he shows shy Western success and failure prosperity and misfortune and expansion and decline were all inseparably linked to the evolution of capitalism at the local regional national and global levels In the tradition of Patricia Nelson Limerick s *Legacy of Conquest* Robbins s study challenges some of our most revered images of the West and invigorates the ongoing debates over its history and meaning for our nation

Indian Country Martin Padgett, 2006 *Indian Country* analyzes the works of Anglo writers and artists who encountered American Indians in the course of their travels in the Southwest during the one hundred year period beginning in 1840 Martin Padgett looks first at the accounts produced by government sponsored explorers most notably John Wesley Powell s writings about the Colorado Plateau He goes on to

survey the writers who popularized the region in fiction and travelogue including Helen Hunt Jackson and Charles F. Lummis. He also introduces us to Eldridge Ayer Burbank, an often overlooked artist who between 1897 and 1917 made thousands of paintings and drawings of Indians from over 140 western tribes. Padgett addresses two topics: how the Southwest emerged as a distinctive region in the minds of late nineteenth and early twentieth century Americans and what impact these conceptions and the growing presence of Anglos had on Indians in the region. Popular writers like Jackson and Lummis presented the American Indians as a primitive culture waiting to be discovered and experienced firsthand. Later, as Padgett shows, Anglo activists for Indian rights such as Mabel Dodge Luhan and Mary Austin worked for the acceptance of other views of Native Americans and their cultures. *Perspectives in Mexican American Studies*, 1993. *War with Mexico!* Tom Reilly, 2010. The first book to tell the history of the Mexican war through the eyes of the American reporters, the nation's first war correspondents who covered it on the ground. Provides an up-close, richly detailed, comprehensive account of the war as well as insights into the rise of modern commercial journalism, its impact on public perceptions, and its entanglement with national politics. **Bibliographic Index**, 2001. **Handbook of Latin American Studies**, 1936. Contains scholarly evaluations of books and book chapters as well as conference papers and articles published worldwide in the field of Latin American studies. Covers social sciences and the humanities in alternate years.
