The Lettering

Rosina Ehmann

The Lettering:

Engineering Graphics B. Bhattacharyya, 2013-12-30 Engineering Graphics has been serving the community of engineers as the only medium through which all sorts of engineering communications regarding planning as well as design can be made. Hence it is essential for all engineers to achieve the capability of reading, preparing and interpreting drawings. The aim of the book is to provide a well built foundation of engineering drawing to the beginners and to provide a scope to have a brushing up facility for the practicing engineers. Keeping these two basic objectives in view, a step by step approach has been adopted, starting from drawing instruments, sheets, scales, curves etc. The guidelines as laid in different codes published by Bureau of Indian Standard are mentioned and followed. Involved association of the authors with the subject for a pretty long time in various capacities like teacher, examiner, paper setter and head examiner has enriched the book in terms of content and its approach. Sufficient number of worked out examples and multiple choice questions are provided to have a holistic view of the subject. **IG-report**, 1960 Nishapur: Pottery of the Early Islamic Period Charles Kyrle Wilkinson, 1973 The city of Nishapur located in eastern Iran was a place of political importance in medieval times and a flourishing center of art, crafts and trade. This publication studies the pottery found at the site at Nishapur excavated by the Iranian Expedition of the Metropolitan Museum in 1935-40 and again in 1947. Metropolitan Museum of Art website
