The Liber Augustalis:

The Liber augustalis or Constitutions of Melfi, promulgated by the Emperor Frederick II. for the Kingdom of Sicily in 1231 Friedrich (Röm.-dt. Reich, Kaiser, II.),1971 The Common Legal Past of Europe, 1000-1800 Manlio

Bellomo,1995 A readable introduction to medieval legal history Whilst the scope is broad detailed discussion and a discursive bibliography makes it useful for the general historian **The Liber Augustalis Or Constitutions of Melfi** ,1971 **The**

Imagery and Politics of Sexual Violence in Early Renaissance Italy Péter Bokody,2023-01-26 This book is the first comprehensive study of images of rape in Italian painting at the dawn of the Renaissance Drawing on a wide range of primary sources P ter Bokody examines depictions of sexual violence in religion law medicine literature politics and history writing produced in kingdoms Sicily and Naples and city republics Florence Siena Lucca Bologna and Padua Whilst misogynistic endorsement characterized many of these visual discourses some urban communities condemned rape in their propaganda against tyranny Such representations of rape often link gender and aggression to war abduction sodomy prostitution pregnancy and suicide Bokody also traces how the new naturalism in painting introduced by Giotto increased verisimilitude but also fostered imagery that coupled eroticism and violation Exploring images and texts that have long been overlooked Bokody s study provides new insights at the intersection of gender policy and visual culture with evident relevance to our contemporary condition **The Papacy, Frederick II and Communal Devotion in Medieval Italy**

James M. Powell,edited by Edward Peters,2024-10-28 Of the twenty five essays in this volume most were published between 1961 and 2013 but four are printed here for the first time They represent the work of a great and original scholar in Mediterranean history whose unflagging interest in Frederick II and his world consistently led him out into broader fields which he always viewed in original ways In an age often called that of papal monarchy and secular minded rulers Powell found popes with complex agendas and extensive pastoral concerns a rather more Christian Frederick II the human personnel and mechanics of the Fifth Crusade the sermons of the devout urban layman Albertanus of Brescia and Muslims under Christian rule His studies here assert a continuity between the pontificates of Innocent III and Honorius III as well as the pragmatic necessity that only secular rulers could launch and direct crusading expeditions His interest in the northern Italian communes relates their devotional culture to the ideals of virtuous government and communal identity The devotional culture of the communes was to be the subject of his next book now unfinished several parts of it could be rescued and are now included here **Popes, Canonists and Texts, 1150-1550** Kenneth Pennington,2024-10-28 Several different

approaches to medieval legal history are evident in these articles The first group uses law to investigate the principles that governed society whether clearly articulated or not and to ask how the intellectual structures of the ius commune affected the institutions of government and the presuppositions of the people The second group of articles illustrates the importance of returning to the manuscript sources of later medieval texts rather than relying on the early printed editions In both parts

Professor Pennington also focuses on the lives of individual jurists contending that these provide a key to the understanding of their thought their position in society and the connections between the two One of these articles is published for the first time here while a number of others have been revised and up dated for publication Plusieurs approches diff rentes l histoire l gale du Moyen Age sont refl t es au travers de ces articles Le premier groupe se sert de la loi pour explorer les principes qui gouvernaient la soci t que ceux ci soient clairement exprim s ou non et afin de demander comment les structures intellectuelles de l ius commune affectaient les institutions gouvernementales et les pr suppositions du peuple Le second groupe illustre l importance du retour aux sources manuscrites des textes m di vaux tardifs plut t que de se fier des impressions anciennes Au travers des deux parties du volume le professeur Pennington se concentre aussi sur la vie de certains juristes avan t qu il s agit l d une des clefs permettant de comprendre leur pens e leur place dans la soci t et le rapport entre ces deux facteurs Un des articles est publi ici pour la premi re fois alors qu un certain nombre d autres ont t r vis s et mis jour pour leur r impression

Law and Revolution Harold J. Berman, 1985-01-01 The roots of modern Western legal institutions and concepts go back nine centuries to the papal revolution when the Western church established its political and legal unity and its independence from emperors kings and feudal lords Out of this upheaval came the Western idea of integrated legal systems developed over generations and centuries

The Liber Augustalis Or Constitutions of Melfi Promulgated by the Emperor Frederick II for the Kingdom of Sicily in 1231 Sicily (Italy), Frederick II (Holy Roman Emperor), 1971-07 The Liber Augustalis was born of no grand design but of the demands of government This body of law marked a moment of triumph in the long and frustrating struggle by which Frederick attempted to establish his royal authority in the Kingdom of Sicily Frederick had smashed rebellions by the Muslim population and by the nobility while he systematically negotiated with the clergy over disputed domains It was as a victorious king and emperor that he ordered the compilation of the Liber Augustalis a cornerstone of royal authority in part a summing up of the previous legal efforts of the monarchy in part a significant move beyond the limitations of previous legislation The Liber Augusta is blended many disparate influences into a common body of law The existing legal traditions Lombard Byzantine and Norman the Canon law of the Church and the learning of the Bolognese scholars especially Master Petrus Della Vigna provided sources on which Frederick could draw but the laws represent the viewpoint of the monarchy rather than those of the powerful groups within the kingdom Church nobility and

towns whose interests were often counter to those of the king Ultimately events proved that the greatest danger to Frederick's rule lay not in the kingdom itself but in the determination of the papacy and the Roman curia to prevent Sicily from becoming the seat of empire in Italy In 1231 however when Frederick was formulating his imperial policy the first priority lay in establishing the strongest posture for monarchy *The Liber Augustalis Or Constitutions of Melfi* ,1971 **Life, Legend and Canonization of St. John Nepomucen, Etc** Albert Henry Wratislaw,1873 **The Council of Basel - the papal restoration, 1418-1464** Mandell Creighton,1882 **Life, Legend, and Canonization of St. John Nepomucen** Albert Henry Wratislaw,1873 **The student's ecclesiastical history** Philip Smith,1885 The Holy Roman empire.
