## **The Life And Times Of Sir Alfred Chester Beatty:**

**The Life & Times of Sir Alfred Chester Beatty** Arthur J. Wilson, 1985      **Mining Tycoons in the Age of Empire, 1870-1945** Raymond E. Dumett, 2009 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammelled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world's rich      **The City Of London Volume 3** David Kynaston, 2015-02-28 Illusions of Gold the third volume of David Kynaston's magnificent quartet The City of London sweeps us from 1914 to 1945 through years of fluctuating fortunes that began with the City at an all time high and ended with the Square Mile ravaged by bombs at its lowest ebb ever With unerring judgement and story telling verve Kynaston takes us through the City's vain attempt to recover the glory days before the First World War in the return to the Gold Standard He follows its tussles with government over control of monetary policy investigates its increasingly important links with British industry and gives a pioneering account of its controversial role in the politics of appeasement Kynaston's great strength is his combination of vivid narrative with meticulous scholarship based on an unparalleled variety of unpublished sources The City of London is now hailed as one of the most ambitious and rewarding historical projects of recent times      **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries      *God's Library* Brent Nongbri, 2018-08-21 In this bold and groundbreaking book Brent Nongbri provides an up to date introduction to the major collections of early Christian manuscripts and demonstrates that much of what we thought we knew about these books and fragments is mistaken While biblical scholars have expended much effort in their study of the texts contained within the earliest Christian manuscripts there has been a surprising lack of interest in thinking about these books as material objects with individual unique histories We have too often ignored the ways that the antiquities market obscures our knowledge of the origins of these manuscripts Through painstaking archival research and detailed studies of the most important collections of early Christian manuscripts Nongbri vividly shows that the earliest Christian books are more than just carriers of texts or samples of handwriting They are three dimensional archaeological artifacts with fascinating stories to tell if we're willing to listen      India in Art in Ireland Kathleen James-Chakraborty, 2017-07-05 India in Art in Ireland is the first book to address how the relationship between these two ends of the British Empire played out in the visual arts It demonstrates that Irish ambivalence about British imperialism in

India complicates the assumption that colonialism precluded identifying with an exotic other Examining a wide range of media including manuscript illuminations paintings prints architecture stained glass and photography its authors demonstrate the complex nature of empire in India compare these empires to British imperialism in Ireland and explore the contemporary relationship between what are now two independent countries through a consideration of works of art in Irish collections supplemented by a consideration of Irish architecture and of contemporary Irish visual culture The collection features essays on Rajput and Mughal miniatures on a portrait of an Indian woman by the Irish painter Thomas Hickey on the gate lodge to the Dromana estate in County Waterford and a consideration of the intellectual context of Harry Clarke s Eve of St Agnes window This book should appeal not only to those seeking to learn more about some of Ireland s most cherished works of art but to all those curious about the complex interplay between empire anti colonialism and the visual arts
