**Poet of Expressionist Berlin** Patrick Bridgwater,1991 Holderlin Buchner Shelley Keats Baudelaire Van Gogh and Munch Bridgwater ends his study with a discussion of Heym's place in the general topography of neo romanticism and German Expressionism and cautions against too strict a confinement within Expressionist categories of the work of one of the major voices of early twentieth century German literature A Study Guide for "Expressionism" Gale, Cengage Learning,2016 A Study Guide for Expressionism excerpted from Gale's acclaimed Literary Movements for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Literary Movements for Students for all of your research needs German Incertitudes, 1914-1945 Klemens von Klemperer,2001-03-30 The history of modern Germany has all too readily been seen in terms of an historical process that inevitably led to the horrors of National Socialism As there are no certitudes in life however so there are none in German history In this book historian Klemens von Klemperer focuses on what he terms the German Incertitudes namely the tensions between a realistic acceptance of disenchantment with the modern world and an insistence upon reenchancement Exploring this tension through a critical assessment of the ideas and writings of major German thinkers von Klemperer seeks to account for both the achievements and the failings of German thought society and politics as responses to the challenge of modernity in the first half of the 20th century In addition to individuals such as Nietzsche Weber Spengler J nger Bonhoeffer and Heidegger the author considers broader movements and ideas such as the concept of Gemeinschaft and the German expressionists all in the wider context of Western intellectual currents Rather than belaboring presumed German deviance from the European norms von Klemperer explores the reasons why the sense of crisis in the face of modernity was singularly acute among Germans he traces a spectrum of reactions extending from an acceptance of modern disenchantment to the quest for reenchancement which found an extreme manifestation in National Socialism **Cities and Literature** Malcolm Miles,2018-10-03 This book offers a critical introduction to the relation between cities and literature fiction poetry and literary criticism from the late eighteenth to twenty first centuries It examines examples of writing from Europe North America and post colonial countries juxtaposed with key ideas from urban cultural and critical theories Cities and Literature shows how literature frames real and imagined constructs and experiences of cities Arranged thematically each chapter offers a narrative which introduces a number of key thinkers and writers whose vision illuminates the prevailing idea of the city at the time The themes are extended or challenged by boxed cases of specific texts or images accompanied by short critical commentaries the structure provides readers with a map of the terrain enabling connections across time and place within manageable limits and offers elements of critical discussion to serve a growing number of university courses which involve the intersections of cities and literature This volume offers access to literature from an urban perspective for the social sciences and access to urbanism from a

literary viewpoint It is an excellent resource for both undergraduate and postgraduate students in the fields of urban studies and English literature planning cultural and human geographies architecture cultural studies and cultural policy **Sites of Memory, Sites of Mourning** Jay Winter, 2014-05-15 Jay Winter's powerful study of the collective remembrance of the Great War offers a major reassessment of one of the critical episodes in the cultural history of the twentieth century Dr Winter looks anew at the culture of commemoration and the ways in which communities endeavoured to find collective solace after 1918 Taking issue with the prevailing modernist interpretation of the European reaction to the appalling events of 1914-18 Dr Winter instead argues that what characterised that reaction was rather the attempt to interpret the Great War within traditional frames of reference Tensions arose inevitably *Sites of Memory Sites of Mourning* is a profound and moving book of seminal importance for the attempt to understand the course of European history during the first half of the twentieth century *Paul Klee* Kathryn Porter Aichele, 2006 Sumario The artist poet painter I am a poet after all The poetic and the pictorial A poetic personal idea of landscape Harmonizing architectonic and poetic painting Poems in pictorial script Klee and concrete poetry What counts as poetry *Mental Processes and Narrative Possibilities in the German Novelle, 1890-1940* David Turner, 2005 Although it concentrates on a particular historical period and although it examines a variety of individual works many of them acknowledged Novellen this study is neither an historical survey nor a collection of interpretations Its distinctive approach is taxonomical and comparative Taking as its starting point the surge of interest in the human mind as the nineteenth century drew to a close it examines the kinds of shorter narrative that were generated by that interest On the other hand therefore it investigates how by focusing on particular aspects of the mind writers were led to adopt certain narrative patterns or structures and on the other hand building on the work of Dorrit Cohn but extending her range considerably it explores and evaluates the different modes of presentation which writers exploited as they sought to give life to the inner workings of their characters According to some psychology and the Novelle are incompatible Although the investigation concludes that there is no inherent incompatibility between psychological interest and the aims of the Novelle it also demonstrates that psychological interest in shorter narratives does not always lead to Novellen it explores other narrative structures that may arise when particular models of the mind form their basis *Literary Movements for Students*, 2002 *Journal of European Studies*, 1992 Literature and ideas from the renaissance to the present **New German Studies**, 1992 **Book Review Digest**, 1993 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher **Duino Elegies** Rainer Maria Rilke, 1999

Perhaps no cycle of poems in any European language has made so profound and lasting an impact on an English speaking readership as Rilke's Duino Elegies. These luminous new translations by Martyn Crucefix facing the original German texts make it marvellously clear how the poem is committed to the real world observed with acute and visionary intensity. Completed in 1922 the same year as the publication of Eliot's *The Waste Land* the Elegies constitute a magnificent godless poem in their rejection of the transcendent and their passionate celebration of the here and now. Troubled by our insecure place in this world and our fractured relationship with death the Elegies are nevertheless populated by a throng of vivid and affecting figures: acrobats, lovers, angels, mothers, fathers, statues, salesmen, actors and children. This bilingual edition offers twenty first century readers a new opportunity to experience the power of Rilke's enduring masterpiece. Book jacket
