**Ahimsā** Bodo Balsys,2004 Ahimsa means harmlessness carried out in thought word or deed A major precept of Buddhists of all denominations is to practice harmlessness Such activity is not supposed to be theory but a practical fact a sacred pledge samaya integrated into the fibre of one s every mode of conduct on the path to enlightenment and liberation from the samsara However as this text elaborates all good intent along this line falls flat in the light of the practice condoned by many Buddhists of meat consumption Harm is thus caused to the animal butchered to the consumers of the flesh and to the environment we all live in It is also a decidedly gross act of adharma to all in the society wherein the Buddhist practitioner that consumes animal products resides as clearly explained in this book It is time that Buddhists whole heartedly spurn all considerations of meat toxins in their bodily environments to actively espouse the cause of true harmlessness in all that they do and to act as Bodhisattvas by teaching all how to be compassionate through not killing or harming their animal brethren The reasons are clear as to the way to be truly compassionate as all Buddhists should be Read learn and observe your true motives in everything you do desist from harmful actions and thereby grow and become Bodhisattvas and Buddhas at the end of it all Recent Indian Publications on Display at World Book Fair Sudhir Chandra Mathur,1996 Catalog of books on display at the 12th New Delhi World Book Fair held at New Delhi in February 1996
