Offender Care and Support by Families in Contemporary Japan Mari Kita,2023-09-01 Because people's contact with the criminal justice system comes in different shapes and forms scholars are now broadening their analytical scope and examining the overall repercussions of criminal justice contact on families of offenders Compared to Western societies Japan is known for its lower crime rates and more pronounced use of informal social control Thus it offers a useful research site for examining how families in a low crime society experience criminal justice contact and how they function as an integral part of the nation's crime control mechanism This book considers the role of the family in the lives of offenders and the criminal justice system in Japan Looking particularly at gender and patriarchal power relations it reveals how cultural notions of femininity prompt the criminal justice system to rely on women as its proxy This book explores how families of offenders often step in to fill the voids left by criminal justice institutions and social services to provide offenders with all inclusive care The burden of supervising and rehabilitating offenders on top of the expectation to atone for the crimes also renders families ambivalent and ashamed Whereas the state and criminal justice authorities tend to see offenders' families as a crucial resource for prisoner reentry this book highlights the necessity for addressing families' needs before automatically assuming their support It also pushes the boundaries of feminist criminology by showing how women can be affected by male criminality and male dominated criminal justice institutions other than as victims and offenders An accessible and compelling read this book will appeal to students and scholars of criminology sociology gender studies Japanese culture and all those interested in learning more about the criminal justice system in Japan
