Participatory Development and the World Bank Bhuvan Bhatnagar, Aubrey C. Williams, 1992-01-01 Participatory development is an end and a means It is an end because participation builds skills and enhances people s capacity for action and for enriching their lives It is a means because participation contributes to better development policies and projects As a development agency the World Bank is primarily concerned with exploring how individuals communities and public and private institutions can contribute to making development prospects better and more lasting This report reflects the outcome of a workshop intended to explore some difficult issues such as whether the Bank is approaching the idea of participation in the right way how and to what extent external agencies can encourage participatory development This book is a guide to the learning process The main messages of the introductory chapter reflect further thinking of the learning groups since the workshop
