## **The Liberal Imagination:**

The Liberal Imagination Lionel Trilling, 2012-07-18 The Liberal Imagination is one of the most admired and influential works of criticism of the last century a work that is not only a masterpiece of literary criticism but an important statement about politics and society Published in 1950 one of the chillier moments of the Cold War Trilling's essays examine the promise and limits of liberalism challenging the complacency of a naive liberal belief in rationality progress and the panaceas of economics and other social sciences and asserting in their stead the irreducible complexity of human motivation and the tragic inevitability of tragedy Only the imagination Trilling argues can give us access and insight into these realms and only the imagination can ground a reflective and considered rather than programmatic and dogmatic liberalism Writing with acute intelligence about classics like Huckleberry Finn and the novels of Henry James and F Scott Fitzgerald but also on such varied matters as the Kinsey Report and money in the American imagination Trilling presents a model of the critic as both part of and apart from his society a defender of the reflective life that in our ever more rationalized world seems ever more necessary and ever more remote

The Critic in the Modern World explores the work of six influential literary critics Samuel Johnson William Hazlitt Matthew Arnold T S Eliot Lionel Trilling and James Wood each of whom occupies a distinct historical moment It considers how these representative critics have constructed their public personae the kinds of arguments they have used and their core principles and philosophies Spanning three hundred years of cultural history The Critic in the Modern World considers the various ways in which literary critics have positioned themselves in relation to the modern tradition of descriptive criticism In providing a lucid account of each critic's central principles and philosophies it considers the role of the literary critic as a public figure interpreting him as someone who is compelled to address the wider issues of individualism and the social implications of the democratising secularising liberalising forces of modernity
