the volume asking why Boehme matters today and how readers in the present might be enriched by a fresh engagement with his apparently opaque and complex writings

Shakespeare's Secret Booke David Ovason, 2010-01-01

As David Ovason reveals many leading esoteric writers alchemists occultists and Rosicrucians contributed to this Secret booke Among the more outstanding English literary figures who used the code were the mysterious adviser to Elizabeth I John Dee the turbulent author of *The Alchemist* Ben Jonson and the more classically minded Edmund Spenser whose poem *The Faerie Queene* is the best known esoteric work of the period Shakespeare's *Secret Booke* reveals many other literary figures who together form a remarkable underground literary movement including the most influential esotericist of the period Jacob Boehme and alchemists such as the English polymath Robert Fludd Another was Shakespeare's contemporary the youthful Johann Valentin Andreae credited as author of *The Chymical Wedding* a Rosicrucian work replete with sophisticated examples of encoding

There is no religion higher than Truth Moreover there is and can be but one absolute Truth in Kosmos The majority of the public Areopagus is generally composed of self appointed judges who have never made a permanent deity of any idol save their own personalities their lower selves And he who believes his own religion on faith will regard that of every other man as a lie and hate it on that same faith Theosophy is not a religion It is Religion itself a Divine Science embracing every science in life moral and physical and a sublime code of Ethics Theosophy is Religion and the Theosophical Society the Universal Church of Morality The Theosophical Movement is the great moral but silent force Human life devoid of all its world ideals and beliefs becomes deprived of its higher sense and meaning But the world ideals can never completely die out Exiled by the fathers they will be received with open arms by the children The Theosophical Movement was reborn in 1875 and so the cyclic evolution of theosophical ideals continues

From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the works of Edward Taylor

Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process
