Rose, Alan Beard, Sharon Duggal, Malachi McIntosh, Joel Lane, Balvinder Banga, 2018-09-27 Few cities have undergone such a radical transformation over the last few decades as Birmingham Culturally and architecturally it has been in a state of perpetual flux and regeneration with new communities moving in then out and iconic post war landmarks making way for brighter coloured 21st century flourishes Much like the city itself the characters in the stories gathered here are often living through moments of profound change closing in on a personal or societal turning point that carries as much threat as it does promise Set against key moments of history from Malcolm X's visit to Smethwick in 1965 to the Handsworth riots two decades later from the demise of the city's manufacturing in the 70s and 80s to the on going tensions between communities in recent years these stories celebrate the cultural dynamism that makes this complex often divided second city far more than just the sum of its parts *New Boundaries in Political Science Fiction* Donald M. Hassler, Clyde Wilcox, 2008 This book offers an interpretation of the evolution of a growing genre in literary film and television As a follow up to their 1997 collection Political Science Fiction Hassler and Wilcox have assembled twenty four noted international scholars representing diverse fields of inquiry to assess the influential voices and trends from the past decade in New Boundaries in Political Science Fiction The terrors and technologies that permeate our daily lives have changed radically in the past decade further highlighting the underlying speculations on our contested future that remain the core of this genre In surveying the vast expanse of politically charged science fiction of recent years the editors posit that the defining dilemma for these tales rests in whether identity and

meaning germinate from progressive linear changes or progress or from a continuous return to primitive realities of war death and the competition for survival The discussion of political implications ranges among writers from H G Wells Robert A Heinlein Ursula Le Guin and Isaac Asimov to more radical recent voices such as Iain M Banks William Gibson Joanna Russ Philip K Dick and China Mieville While emphasizing the literature the collection also addresses political science fiction found on film and television from the original Star Trek through the newest incarnation of Battlestar Galactica **The Eclectic Magazine of Foreign Literature, Science, and Art** ,1889 **The Wisconsin Bookstore Book** Carole Marsh,1991-09
