**First Things First** Tom Iselin, 2011-06 All proceeds 100% from the sale of First Things First go to hunger relief organizations and organizations that rehabilitate wounded veterans To see a list of these organizations or to buy hardcopies of First Things First visit [www.tomiselin.com](http://www.tomiselin.com) Lined with bold messages and practical advice First Things First Pelican Lake Press 25 00 223 pp takes readers on an insightful journey of how to build a high performance nonprofit Too often early stage nonprofits want to do what's convenient not what's important says Iselin who has spent the last 20 years building some of the nation's most innovative nonprofits The nonprofit world is filled with passionate people eager to make a difference Their intentions are noble but most leaders of early stage nonprofits lack the experience needed to build a quality organization They tend to take short cuts penny pinch and make hasty decisions The result is costly disruptions operational migraines and in some cases failure First Things First is a guidebook for leaders of early stage nonprofits 0-6 years old and small nonprofits budgets less than 3 million It focuses on a set of governing principles operational structures and practical tactics board members executives and managers should adopt and apply early on in their business lifecycle if they are serious about fulfilling their missions and building sustainable nonprofits of superior quality Each chapter provides a case study example that relates chapter topics to experiences Iselin had during the five years he spent as chief executive at SVAS Readers see how the SVAS staff and board overcame a host of challenging situations to create a pathway for the organization to develop pioneering programming and effective operations that propelled SVAS to national recognition and acclaim What makes First Things First different from other getting started and growing your nonprofit books is that the principles and tactics found in this book are often overlooked and understated or leaders wait too long to adopt and apply them Iselin notes Seasoned leaders know costly mistakes made early on can have long term consequences that can derail the dreams and momentum of fulfilling a worthy mission First Things First shows leaders how to avoid common mistakes and how critical it is to make important decisions early on that might not seem obvious or intuitive In the book readers learn how to hire the best staff and

nominate the best board members by identifying a set of uncommon attributes They learn how to efficiently leverage their human capital how to unravel the mysteries of developing a healthy relationship between board members and a chief executive how to develop an engaging culture how to build a brand that captures the attention of national media how to raise big money from major donors using rarely applied fundraising techniques how to dodge the traps of lip service passion and much much more The book provides dozens of practical tactics and tips that leaders can quickly put into practice Most importantly First Things First teaches leaders how to think about the process of building and operating a high performance nonprofit They learn how they do what they do is more important than what they do and just because they can do something doesn't mean they should do it First Things First is receiving praise for its hard hitting yet inspiring analysis Iselin says what many in the nonprofit industry are too afraid to say He addresses sensitive issues such as personal accountability and moral obligations yet his encouraging words and useful advice give readers hope that their nonprofits can become triumphant successes if they are willing to do the right things right from the start
