way in which power agency and authority circulate and accrue between writers and readers The chained literacy event created as a report moves through the system is highlighted and its hierarchical nature examined The book ultimately addresses the constraints of the police report genre and seeks to expose the complex and multifaceted rhetorical situation of report writing Due to her position as a police officer s wife Seawright was granted access to perspectives and realities of police writing typically reserved for those inside the police profession Seawright obtained candid interviews and perspectives from police officers and supervisors lawyers and judges This book analyzes the writing and reading process of the officer writing the report and the report s subsequent readers Interlaced throughout the book are micro chapters that offer glimpses into the day to day job of police officers These vignettes combined with Seawright s description of her own life as wife and scholar present a compelling picture of the complexity of police writing This study challenges the idea that arhetorical and objective documents are possible to create in many organizations CCCC Studies in Writing Rhetoric Series
