## **Star Stalkers:**

*Star Stalkers* George Mair, 1995 We idolize them movie stars sports heroes even politicians But all their wealth and celebrity can't keep them safe from fans whose blind love turns into savage obsession These are the chilling true stories of celebrities including Michael J Fox David Letterman Janet Jackson Sly Stallone Donna Mills and Vanna White who have been stalked by crazed fans    **Stalkers** Jean Ritchie, 2016-12-29 SOMEWHERE SOMEONE IS WATCHING WAITING What is it like to suffer the attentions of an obsessive fan to be haunted by the menace of a stalker What changes devotion into something far more sinister and how do the stars cope with the pressure

**The Criminalisation of Stalking** Emily Finch, 2024-11-01 First published in 2001 The Criminalisation of Stalking fills a much needed gap by drawing upon a range of methodologies to present a thorough and comprehensive examination of the way in which stalking became perceived as a pressing and prevalent social problem in need of legal intervention as well as providing a critical evaluation of the efficacy and sufficiency of the legal responses Essentially this book has two main objectives first to provide a comprehensive account of the process by which stalking came to be regarded as a significant social problem which merited legal intervention and to evaluate that response And secondly to situate this within a wider theoretical context which addresses the role of the criminal law in dealing with social problems and the boundaries of criminalization This illustrates how a detailed consideration of a particular issue can inform wider debate and provide a unique perspective on existing theoretical material This socio legal perspective facilitates the use of a range of methodologies to challenge the existing conceptualization of stalking and to present a wider range of potential solutions to this complex social problem This is a must read for scholars and researchers of criminology

**Random Violence** Joel Best, 1999-03-02 Random Violence is a deft and thought provoking exploration of the ways we talk about and why we worry about new crimes and new forms of victimization Focusing on so called random crimes such as freeway shootings gang violence hate crimes stalking and wilding Joel Best shows how new crime problems emerge and how some quickly fade from public attention while others spread and become enduring subjects of concern Best's original and incisive argument illuminates the fact that while these crimes are in actuality neither new nor epidemic nor random the language used to describe them nonetheless shapes both private fears and public policies Best scrutinizes the melodramatic quality of the American public's attitudes toward crime exposing the cultural context for the popularity of random violence as a catch all phrase to describe contemporary crime and the fallacious belief that violence is steadily rising He points out that the age race and sex of homicide victims reveal that violence is highly patterned Best also details the contemporary ideology of victimization as well as the social arrangements that create and support a victim industry that can label large numbers of victims He demonstrates why it has become commonplace to declare war on social problems including drugs crime poverty and cancer and outlines the complementary influence of media activists officials and experts in institutionalizing crime problems Intrinsic to all these concerns is the way in which policy

choices and outcomes are affected by the language used to describe social problems
